**Von Agatha Christie : N or M? (Tommy Tuppence) (Tommy and Tuppence Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised N or M? (Tommy Tuppence) (Tommy and Tuppence Series):

KundenrezensionenHilfreichste Kundenrezensionen3 von 3 Kunden fanden die folgende Rezension hilfreich. Outstanding piece of wartime fiction!Von Ein KundeNormally Agatha Christie chooses to focus on the mysteries and not really concentrate on political and social events of that period; consequently her characters sometimes seem to be

living in a vacuum, removed from all that is happening around them. What makes "N or M?" unusual is that Christie chose to focus on WWII and what was happening in England at that time. Tommy and Tuppence who are living quietly in London suddenly find their routine interrupted when Tommy is called away on a secret assignment to try and find Hitler's most dangerous agent who has infiltrated England in advance of a planned attack by the Nazis. Of course, Tuppence who refuses to be left out of anything, follows him and actively helps him while posing as a garrulous widow. The book is more powerful than most because of the very real sense of menace that Christie creates and the feeling of evil lurking in the air. Wingding suspense and a knock-out ending - the only flaw was the focus on romance. Normally, it is nice to have a romantic attachment develop in Christie's books as they provide a nice relief to the mystery, but in this case I thought she should have concentrated only on the mystery; romance is almost superfluous in such a setting. It's interesting to think that while Tommy and Tuppence never actually existed, there may have been characters like them - ordinary people who possessed above-average intelligence who were picked to lead dangerous spy missions and who succeeded precisely because they were so ordinary and therefore not what the enemy was expecting. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Very nice and very interesting - a must-read Von Ein Kunde I think this book is one of Agatha's best books. It is thrilling from the first word not only after the murder. It is written realistically und so very interesting and it isn't a sobstuff. She keeps always factually. The tension mounts in the middle of the book when something new happens. A must-read !!! 0 von 0 Kunden fanden die folgende Rezension hilfreich. Agatha Christie's Best Book since "Curtain"... Von Ein Kunde Who was the mysterious foreign woman who kept sneaking around? Why did she try to kidnap the young daughter of a tenant at the Sans Souci? Why was the Landlady acting so conspicuous? Why was everyone at the Sans Souci so mysterious? Was the old man who lived on the shore telling the truth about seeing signal lights across the water? Or was he lying? "N or M" is one of Agatha Christie's best books. This book is about a Couple trying to find one of Hitler's most dangerous agents , Code name "N" or "M", during the war before Germany mounts a surprise attack on England. The book gets more intense when the daughter of this couple is blown, and their true identity gets revealed to code name "N or M"

Kurzbeschreibung Tommy Tuppence are hired to track down wartime spies at a seaside resort It is World War II, and while the RAF struggles to keep the Luftwaffe at bay, Britain faces an even more sinister threat from the enemy within Nazis posing as ordinary citizens. With pressure mounting, the Intelligence service appoints two unlikely spies, Tommy and Tuppence Beresford. Their mission: to seek out a man and a woman from among the colourful guests at Sans Souci, a seaside hotel. But this assignment is no stroll along the promenade. After all, N and M have just murdered Britain's finest agent From Library Journal Middle-aged Tommy and Tuppence Beresford, too old to fight and too young to knit, are dismayed to find out that the British government of World War II has little interest in their detecting and spy-catching abilities. Then, almost incidentally, they are asked to spot a traitor, believed to be living at a rural guesthouse. But the place is full of harmless eccentrics: elderly ladies, retired military men, a hypochondriac and his colorless wife, a young mother, and a German refugee. The Beresfords invent personalities and elaborate traps, identify the imposter, and prevent an invasion. The strengths of this Christie "cozy" are the exuberant charm, intelligence, and enthusiasms of the central characters. Middle-aged they may be, but inside Tommy and Tuppence are still the same young adventurers who chased criminals and spies in post-Great War London. James Warwick does a highly competent, nicely unobtrusive job of reading this title, which is likely to be popular with fans of golden age mysteries. Recommended for moderate to large public libraries. I. Pour-El, Des Moines Area Community Coll., Boone, IA Copyright 2002 Reed Business Information, Inc. Pressestimmen`As ingenious as ever.' Guardian`A nice surprise finish... all-round entertainment.' Observer
