**Von Edie Claire : Never Haunt a Historian: Volume 7 (Leigh Koslow Mystery Series) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Never Haunt a Historian: Volume 7 (Leigh Koslow Mystery Series) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Leider etwas langatmigVon ShadowriderLeider nicht so gut wie einige der anderen Bnde der Serie - diese sind spannender

und flüssiger zu lesen. Daher nur drei Sterne.

Kurzbeschreibung Seventh in the USA-Today and Kindle Top Ten bestselling Leigh Koslow Mystery Series! A hidden secret A ghost to keep it that way. Leigh Koslow doesn't care who claims to see the specter of a Civil War soldier skulking around her neighbor's farm; she does NOT believe in ghosts. Never mind that the farm in question was settled by a veteran of the Battle of Gettysburg, and never mind that its occupants have complained of floating lights, shadowy figures, and poltergeist-style vandalism for a solid half century. When her amiable neighbor Archie Pratt, beloved captain of a local unit of reenactors, vanishes from the farmhouse without a trace, Leigh is certain there is a rational explanation. She is also certain there is a rational explanation for the bizarre refilled holes that keep appearing all over her neighborhood, and that neither has anything whatsoever to do with the farm's chilling history of curses, insanity, and murder. She can only hope. Because when her children discover an aged map of the neighborhood that seems to point to hidden treasure, the local Civil War buffs think otherwise. Did Union private Theodore Carr leave Cemetery Hill in 1863 with a little souvenir? Only one thing is for sure: someone thinks he did. And as intrigue escalates to violence within feet of her own backyard, Leigh determines to figure out whom before any more hastily dug holes turn into unmarked graves!

ber den Autor und weitere Mitwirkende No matter the genre, USA-Today bestselling novelist and playwright Edie Claire strives to infuse all her writing with both warmth and humor. Her family-friendly Leigh Koslow cozy mystery series, a favorite of animal lovers that was originally published in 1999, was reborn in 2012 to become a USA-Today bestseller. Her romantic novels range from women's fiction with romantic elements to a blend of romance and mystery, beginning with her traditionally published contemporaries, the award-winning *Long Time Coming* and *Meant To Be*, and continuing with her exciting new series of interconnected romantic novels, *Pacific Horizons*, whose characters follow the migration of the humpback whales to some of the most gorgeous locations on earth. In any Edie Claire work, the reader may be assured that intrigue will beckon and tensions will rise - but love will triumph and happy endings will abound!
