Von Christopher Nuttall : Never Surrender (The Empire's Corps Book 10) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Never Surrender (The Empire's Corps Book 10) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. Too much repetitionVon A.F.H. TintenkriegerThis is a new installment of the Empires Corpse saga and tells the next chapter in the Commonwealth-Wolfbane War. I was actually very much looking forward to this, as the parts so far

have been real page turners, if you're able to blend out Nuttalls politic rants. But this time the story was bloated. He took himself his sweet time to tell the story of one prison escape and one covert ops strike. Meaning, nothing much happened really and that nothing much was told with thousands of words. Feels like Nuttall is finally grinding to a halt in his creativity. Maybe concentrate on two books per year instead of five plus and fill those remaining two with actual content. 1 von 1 Kunden fanden die folgende Rezension hilfreich. ok Von Komiker Still, some quirks of Christopher Nuttall irk me (in particular, seeing the bad guys referred to with their first Name...) Also, the fact that the only way his schemes work have to do with the Good Guys (TM) having marines, who are actually more than humans, as far as fighting prowess goes)... That the bad guys do not get any marines is ... surprising, to say the least.... It makes for enjoyable, easy reading but the story pushes the bounds of plausibility (and that takes some doing in a science-fiction universe). 0 von 1 Kunden fanden die folgende Rezension hilfreich. Never Surrender ist Teil der Serie Von Carl J. Thormann Ich habe schon fr einige andere Teile der Empire's Corps Serie eine Rezension geschrieben. Ich kann also nur wiederholen, dass diese Bcher sehr unterhaltsam, spannend und phantasievoll sind. Ich hoffe, der Autor aschreibt weiter - Danke!

Kurzbeschreibung The war isnt going well. Wolfbanes forces are pressing the Commonwealth on multiple fronts, the Commonwealths fragile political balance is on the verge of shattering and theres a high-placed spy somewhere within the Commonwealth elite. For Colonel Edward Stalker and his men, the stakes have never been so high. Defeat will mean the end of everything they have fought and died for since their exile from Earth. Held in a POW camp on Meridian, a world on the edge of settled space, Jasmine Yamane and her men seem trapped. But one thing she was never taught was how to give up. Shes coming home, even if she has to burn her way through enemy space to do it ... Kurzbeschreibung The war isnt going well.
