**Von Rebecca York : New Moon** before purchasing it in order to gage whether or not it would be worth my time, and all praised New Moon:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Why???Von AmberThis is the 6th book in the 'Moon' series by Rebecca York and it was disappointing.I really enjoyed all the books in the series before this one but this newest book went off on a tangent that I didn't find that interesting and was also really out of sync with the other books.In this book Rinna is a shapeshifter from another universe which is where everything goes weird. Logan Marshall gets caught in a trap which is meant for her but she frees him. Then to get him to safety she takes him through a portal to her world.So this got really Sci-fi like and really made me moan in agony. I loved this interesting series till now with all the books linked through the Marshall family being werewolves looking for their lifemates. However this one went all weird with portals etc.I kept reading till the

end but I have to say I will be thinking twice about reading the next book in this series if it keeps on going in this direction.

Kurzbeschreibung Landscape architect Logan Marshall is out for a jog in his werewolf form when a trap catches his paw. As it saps his strength, he is saved by another werewolf, who turns out to be a female. Female werewolves aren't supposed to exist. But Rinna is a shapeshifter from another dimension who has traveled through a portal to this world. And the trap that ensnared Logan was set by her former captor, and meant for her. But as soon as Rinna and Logan touch, an electrifying bond forms between them. Unable to resist his desire for Rinna, in all her many forms, Logan will have to earn her trust, and travel through both dimensions to save her and earth from the wrath of her enemy.

From Booklist Logan Marshall is out for a run in his werewolf form when he is caught in a vicious trap that saps not only his strength but also his intellect and consciousness. He is saved by a female werewolf who cajoles him into changing form and frees him from the mysterious trap, which had actually been laid to trap her. Female werewolves don't exist in Logan's world (a world that could be our own), but Rinna is from a parallel universe. That world descended into feudalism and came to be ruled by the cruel Falcone, who has been using Rinna's paranormal talents for his own gain. Using the portals between worlds, Falcone has plans to invade and conquer Logan's world. Rinna, a slave in her realm, finds Logan's world horribly confusing and dangerous but Logan himself incredibly enticing. York's combination of werewolves, romance, suspense, science fiction, and fantasy is a winning one. Diana Tixier Herald Copyright American Library Association. All rights reserved
