Von Nelson DeMille : Night Fall (A John Corey Novel Book 3) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Night Fall (A John Corey Novel Book 3) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen4 von 4 Kunden fanden die folgende Rezension hilfreich. Nice readingVon Ein KundeFollowing "Plum Island" and "Lions Game" this book continues the 'life' of John Corey. He's still at the ATTF and still good for a shipload of nice one-liners. The story is a little strange this time, but brings up a lot of good questions about the world in these years. But this is an adventure book and it stays interesting all the time, so I finished it in one streak. As always the persons are quite realistic and complicated. The story itself is not realistic, but close enough to follow the "what if" kind of fantasy. Some minor technical inconsistencies, no problem. The writing is a little to political correct sometimes, but still readable :) ... The ending is quite a hit, predictable if you catch a hint or two at the beginning and of course the author is unable to answer all questions he put in the air, but that's also clear from the beginning since he is using a real event for this book and that event seems still to hold unanswered questions. Good reading. "Plum Island" and "Lions Game" were better, but not that much.4 von 4 Kunden fanden die folgende Rezension hilfreich. Not your best one, Mr. Demille!Von ESWI was lucky enough to read an advance copy of demille's latest book. i've waited for the release of this book since "up country", which i loved! in the advance copy mr. demille asserts his belief that his latest book is his best one yet. i'm afraid i have to disagree. yes, john corey is back, wise-cracking and all, but i didn't like the story. i did not get me hooked in any way. this is book is not a memorable one. after chapter 3 i started wondering where the story would lead and what the purpose of it is.i'm glad i didn't spend money on the hardcover, and i am still looking forward to another demille book. but please: i'd like to read books that are at least as funny and exciting as "up country" and "the lion's game".2 von 2 Kunden fanden die folgende Rezension hilfreich. Ein solides MeisterwerkVon KundenrezensionenDieser Roman ist der direkte Nachfolger von Das Spiel des Lwen und hat somit auch den ehemaligen NYPD-Detective John Corey als Helden, der mittlerweile mit Kate bekannt aus dem letzten Roman verheiratet ist. Diese etwas ungewöhnliche Ehe zwischen regulärer und Bundespolizei gibt den Ausschlag für die Geschehnisse im vorliegenden Roman.Die blick ansprechende Sprache macht dieses Buch so lesenswert, wie alle anderen Werke von DeMille und der Bruch am Ende macht beraus deutlich, wie einschneidend das letzte beschriebene Ereignis für die Beteiligten sein muss. Ein wieder mal sehr bedenkenswertes Buch von De-Mille, der sicherlich einer der besten Schriftsteller des Agenten- und Polit-Thriller-Genres der USA ist.

Kurzbeschreibung#1 NEW YORK TIMES BESTSELLER"Nelson DeMille at full tilt with another engaging, exciting, and impeccably researched thriller." - The GuardianOn a beach at dusk, while Bud Mitchell and Jill Winslow conduct their illicit love affair in front of a video camera set to record each steamy moment, a terrible explosion suddenly lights up the sky. Grabbing the camera, the couple make their getaway, as approaching police cars speed toward the scene. Five years later, the fate of TWA Flight 800 has been attributed to a mechanical malfunction. But for John Corey and his wife Kate Mayfield, both members of the elite Anti-Terrorist Task Force, the case is not closed. Suspicious of a cover-up, they set out to find the one piece of evidence that will prove their theory-that at least two other people are determined to keep hidden: a videotape of the unbelievable truth..deJohn Corey, former NYPD homicide detective, assigned to the Federal Anti-Terrorist Task Force in the pre-millennium 90's, makes a return appearance in a thoughtful novel offering an alternative to the government's "official" position on what really happened to TWA Flight 800, which crashed off the Long Island coast in the summer of 1996. Accompanying his wife Kate to a memorial marking the five-year anniversary of the crash, Corey's curiosity is aroused by what appears to be a concerted effort by Kate's fellow federal agents to keep him--and her--from investigating a case that appears to be closed. Corey's detecting skills lead him to two witnesses to the crash, who were enjoying an adulterous interlude on the beach at the time the plane went down--and videotaping their sexual escapades while what appears to be a terrorist missile attack takes place in the background. What ratchets up the tension in this capably written thriller is what the reader knows but Corey doesn't as he heads for a showdown with those responsible for the official cover-up as the clock ticks down to the morning of September 11, 2001. DeMille's deft touch with a riddle wrapped in an enigma--what really happened to Flight 800--makes his "what if" scenario a more than plausible theory; you don't have to believe in conspiracies or government cover-ups to find his latest engrossing, entertaining, and enlightening. --Jane Adams .com Exclusive Content Nelson DeMille on Night Fall: An Exclusive Essay It was a true story, the explosion of TWA Flight 800 off the coast of Long Island in 1996, that inspired Nelson DeMille to write the fictional Night Fall. Read this .com exclusive essay for insight into the coincidences that made this tragedy a subject DeMille couldn't ignore. .comJohn Corey, former NYPD homicide detective, assigned to the Federal Anti-Terrorist Task Force in the pre-millennium 90's, makes a return appearance in a thoughtful novel offering an alternative to the government's "official" position on what really happened to TWA Flight 800, which crashed off the Long Island coast in the summer of 1996.
