KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. The Carringtons at their very best!Von Deborah MacgillivrayKiss Tell is a series of three novels for Harlequin Blaze by the sizzling, talented writing team of Lori and Tony a.k.a. Tori Carrington. Jack, Reilly, Mallory and Layla were good friends. Since all three women found Jake attractive, to keep the friendship from getting nasty with sharp objects, the women make a pact that Jack if off-limits to all of them. In Night Fever (Blaze #105) we have Layla's story. And in typical "Tori" fashion, this one burns. What for finger-singeing!Dr. Layla Hollister is not looking forward to meeting her new boss Dr. Sam Lovejoy. Lovejoy is the bodyworks man for Hollywood celebs, giving, adding what they don't have, and taking away what they have too much of! Since Layla is a dedicated GP, she sees this sort of medicine as an

insult to her profession. Only, Dr. Lovejoy has been put in charge of Trident Medical Centre where Layla works. When she meets the sexy, blond man in a trendy dinner club, she does not expect the man with the bedroom eyes is none other than her boss. He gathers from the short conversation they have, that she will immediately stop the flirting if she learnt he was none other than the very boss she is making snide comments about. So, he holds his silence, hoping to get to know her. The next morning, Layla learns that the sexy stranger is her new boss. She does not want to have an "in-house romance", having been burned by another doctor representing himself as single when he was not. Despite that and her anger over him being a plastic surgeon, she cannot stop the attraction she feels for the unusual man. He has a good sense of humour, and he is oh so sexy! Sam's sister Heather gets on his case for loving them and leaving them, and says he should try to actually have a real relationship with a woman for a change. Sam tries. As he tries, he becomes aware that Layla is not. She likes the hot times in the sheets, but she is not expecting it to last. Frankly, since the poor lass is working 40 hours a week at her job and another 40 at a clinic for low income, one can forgive her for not having her thinking cap on! The characters are dead on real. They are funny, loving, people you might meet on the street. Chalk up another winner for the Carrington duo!

Kurzbeschreibung Dr. Layla Hollister isn't thrilled to find out that her new boss is notorious playboy Dr. Sam Lovejoy. She's learned the hard way to avoid mixing business with pleasure. Still, after caring for others all day, she can't help wishing she had someone to take care of her. Then, that night, a sexy stranger unexpectedly steals a kiss, a kiss that promises exactly what she craves pure, selfish, unadulterated pleasure. And it's obvious this man is willing to give her everything she's hungry for and more. It's exactly what the doctor ordered until Layla walks into the hospital the next morning and discovers her sexy stranger is none other than Dr. Sam Lovejoy. And he's expecting to pick up where they left off.
