original story based on the hit TV series Supernatural. This author ROCKS OUT LOUD! Von Detra Fitch Sam and Dean Winchester lost their mother to a mysterious and demonic force twenty-nine years ago. In the years after, their father taught them about the paranormal evil that lives in the dark corners and on the back roads of America...and he taught them how to kill it. When Bobby is alerted to some strange happenings in Clayton Falls, Colorado, he sends Sam and Dean Winchester to do a bit of recon. Lucy Quinn, the daughter of the chief of police, claims that she and two friends were chased by a headless horseman in the park. Lucy and Tony escaped. Her other friend, Steve, ended up running into the street, where he was hit and killed by a '68 Charger. But the '68 Charger did not have a driver and witnesses saw the phantom vehicle disappear into thin air. That same night, a homeless man reports being chased by a Gila monster that had been the size of two Nissans. Sam and Dean use their counterfeit FBI (Homeland Security) credentials to investigate. Chief Quinn believes his daughter may have been drinking and imagined it all. Same with the homeless man. He refuses to believe any of the crazy reports coming into the station are true...even those from his own officers, who insist that Nazi zombies are attacking the locals. The brothers soon find themselves fighting the stuff of nightmares. A tree uproots itself and impales a man on a limb. A giant tarantula dines on a jogger. A sinkhole that is deep and wide enough to hold a gymnasium forms. And those are only the beginning. Sam and Dean must figure out what is causing the terrors that are stalking the nights within Clayton Falls. But they had best do it quickly, because soon the living nightmares will never end. ***** FIVE STARS! On a personal note, I would like to state that this is some creepy stuff! This novel is a media tie-in to the hit CW series "Supernatural". This is an original story and has never been seen on television. If you have not watched the show, I believe that you will still thoroughly enjoy this tale of paranormal horror. For those of you who never miss an episode, "Night Terror" takes place during Season Six, between "Frontierland" and "Mommy Dearest". Author John Passarella writes with a type of malignant zealotry that is highly contagious to his readers. My husband said that any time the real world dared to interfere with my reading of this story (and this includes whenever he gently tapped on my shoulder to ask a quick question), I would have an antagonistic glare in my eyes until I could return to whatever lethal creature was causing havoc. Needless-to-say, interruptions were kept to a minimum. Whether you want an extra "Supernatural" episode or simply to read a dark story and feel cold fingers run the length of your spine, this novel is perfect. ***** Reviewed by Detra Fitch of Huntress Reviews. 1 von 1 Kunden fanden die folgende Rezension hilfreich. One of the best Supernatural novels, I've ever read! Von Jessica I hadn't read English novels for quite a time, I was more into German ones... BUT then I saw this book and had to read it. And I LOVED it!!! The story is great and the characters are well written. I don't want to say it's the best I've read so far (read many over a long time period, so I don't remember every book in detail) BUT I can say that it's one of the best! So, all in all... awesome story, great characters and once in a while a few "dark Sam" mentions which were really cool ;D 0 von 0 Kunden fanden die folgende Rezension hilfreich.
