Von Norah Wilson : Nightfall (A Vampire Romance Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Nightfall (A Vampire Romance Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Great PNR! 4.5 starsVon _yay_ @ Book that ThingDrawn to nature's most volatile demonstrations of power, Sam Shea does the logical thing by making a living out of her special talent. As a photographer on the hunt for hurricanes and the next

money shot, taking a shot -o-f- at something totally different - such as love - is out of the question. Or so she thinks! Aiden Afflack is a force to be reckoned with, and as soon as the vampire realizes Samantha could pose a crucial instrument on his quest for justice, they suddenly find themselves chasing what is not just a measly storm. To top it off, there's some serious mutual attraction sweetening the pot. Let me start off by saying that it's a brilliant idea to have a tune running through the heroes head in the very beginning. I immediately youtubed it and had it play in the background while reading. It also gave me a first glimpse as to what kind of guy Aiden might be. The first few chapters s*cked me in big time. Aiden has a strong sense of justice. You don't want to mess with him! Well, technically...you do...just in an altogether different way *waggleseyebrows*. He truly perfected the use of dry humour, and also had a bit of a violent streak. A confident man is such a turn-on, even when he's a sucker for fang-bangers. Rawwwr! I couldn't stop grinning like the Cheshire cat. Aiden Afflack is the pnr equivalent to my unhealthy Julian Darcangelo obsession. No wonder Sam felt overwhelmed by the raw energy Aiden exuded. Their first meeting exceeded my highest expectations. Game, set and match! Like a train wreck, it was terrifying, but neither Sam nor I could look away. Better than the hanky-panky (or at least pretty close to it). It was a relief that in terms of her special talent the heroine had one foot in the supernatural door already. Otherwise the leap from experiencing and believing in the paranormal would've been too big. As for her personality, I have only good things to tell; praises to sing. She was nosy and didn't apologize for it, instead hammering Aiden for answers to her many, many questions. Right on, girl! She also cares for people and is willing to do everything to help keep a person from getting hurt. However, deep down, there was a vulnerable core. Wait for her inner dialogue. I could relate to her on several levels and had every confidence in Aiden to be exactly what Sam needed. From the get-go to the end, that never once changed. They were playing cat and mouse, happily ignoring what's in front of them. Their happily ever after...duh! I squeaked Miss Piggy-style quite often. Wilson has a serious knack for visual writing! You'll be completely immersed in it. I'm excited to tell you that what I didn't like about the first book in the series wasn't an issue in this one. At all! I can't go into details for obvious reasons, but to sum it up: I was happy about how everything turned out for Aiden. The situation he found himself in suited him. His past had a big influence on his present and attitude towards vampirism. Not gonna tell you what happened, but it's safe to say that I surprised myself with my reaction. A big aspect might've been that I admired exactly the same qualities in Sam that Aiden loved. Their rock-solid connection made everything more intense (fun, suspense, sex, ...). Lots of toe curling moments. That goes for the suspense as well. Nightfall topped The Merzetti Effect in this department - and more. It absolutely deserves to be called paranormal romantic suspense. The only factor that didn't sit well with me was that while their relationship progressed at a very satisfying pace, the ending to the mystery part of the plot came a bit abrupt. I wasn't totally convinced that the problem could be solved so easily. The Epilogue helped somewhat, but didn't reassure me completely. You need to read this book! I especially recommend it for pnr fans that are also in love with Pamela Clare's contemporary romantic suspense I-Team series. 4.5 stars to Nightfall by Norah Wilson. Beware of Spoilers! A few of my favorite quotes for those of you who are interested: "I she could give the fiercest storm a corporeal human body, this is what it would look like. Beauty and violence, all rolled up in one gorgeous, terrible package." "The remote coldness of the stars stretched so indifferently over all that violence below appealed to him." "...he'd be calling for some...uh, room service. Or elevator service or behind-the-counter service or on a desk in the business office service." "Way to tweak the trail of the world's gigantic tiger when you're completely at his mercy." "I baited her with the promise of min-blowing sex. Instead, the sex just blew."

Kurzbeschreibung Aiden Afflack (a vampire) is as charming, sexy and easy-going as he is gorgeous. Unless you happen to be a rogue vampire, in which case he's apt to be the last thing you see. Sam Shea is a wildly successful nature photographer whose prescient dreams lead her to some of the world's most turbulent, awe-inspiring weather phenomena. When their paths cross and Aiden discovers that his proximity to Sam warps her psychic power, causing her to hone in on vampire violence instead of violent weather, he knows he's found a priceless tool in his fight to rid the world of rogues. Sam has a deep-rooted aversion to having her powers exploited, but once her eyes have been opened to the lives she can help save, she can't withhold her cooperation. But she can deny Aiden the other thing he wants from her, which makes her unique among women. And absolutely irresistible to Aiden!
