Rekindled RomanceVon Helen HancoxThe problem, for me, with books about people rediscovering their love is that they lost it in the first place. I find it hard to believe fully in a happy ever after ending when hero and heroine have already divorced once. And thats the case in this book - Jack Davenport who works for the Government in covert operations and Catherine Blackburn, reporter, divorced several years ago after the death of their child.When it looks as though Catherines life is threatened her mother, Jacks boss, persuades him to kidnap Cat until they can be sure she is safe. Of course Cats not keen on the plan but once at Eternity Springs, the small town where Jack has a house, she begins to feel at home and to begin to heal her relationship with Jack.I believe this is a series of books about the Eternity Springs community although its the first that Ive read. There was a rather large cast of characters in the book and I couldnt always keep track. I also found myself not entirely in sympathy with either Jack or Cat; Cat, especially, felt rather cold and distant to me. I also found that the author seemed rather too pleased with the amount of money that Jack has - it felt a bit awkward when we kept reading about it (although this may be my British sensibilities coming into play here).I found the book easy to read but there wasnt anything special in it and I couldnt feel entirely sure about Jack and Cats future together.Originally published for Curled Up With A Good Book Helen Hancox 2013
