Von M Malone : No Angel (Sapphire) before purchasing it in order to gage whether or not it would be worth my time, and all praised No Angel (Sapphire):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Not what I expected.Von Penny DuffThis book was purported to be an exploration of lesbian sub/dom sex, of bdsm exploration. In fact, I found problems with the book, and one strong suit.The strong suit was an interesting story line. The story line was well put together, easy to follow, interesting, and the conclusion was satisfactory.On the down side,

the actual sub/dom and bdsm exploration was shallow and poorly done. This book is not really about lesbian bdsm, even in exploration. It is a vehicle for "vanilla" lesbian sex (with no condemnation of that!), and there is a superabundance of that. If you are looking for bdsm fiction, however, you will find this book very disappointing. As far as the lesbian sex goes, there is variety in the numbers of players (one, two, three), but the descriptions largely sound like carbon copies. Another difficulty rests with the shallowness of her characterizations. There is a flatness to them which is disappointing. This work would be greatly improved with more fully drawn characters. Perhaps I have been spoiled by authors such as Pat Califia, but unless you want the lightest of lightweight lesbian bdsm, this book is not one I would recommend. 0 von 0 Kunden fanden die folgende Rezension hilfreich. A great read with something for everybody Von Lynda Allen-Griffin This is the best piece of erotica I have read in a long while. If it's variety you're after it's all here. Every possible combination of people, location and activities you can think of and a few that you probably wouldn't! The characters are believable and the plot thoroughly entertaining and action packed. Yet there are moments of tenderness and romance too - as I said something for everyone. This book also provides an excellent introduction to the world of sub/dom sex and is bound to be a real eye opener. I promise you it provided me with plenty of bedroom inspiration. Read and enjoy and tell your friends! 0 von 0 Kunden fanden die folgende Rezension hilfreich. An exciting read which works on many levels Von Dannielle Gannon No Angel is one of the best written erotic novels I have read in a long time. In addition to the obligatory (and beautifully described) sex, it also offers some excellent, slick and at times comic writing of the highest quality. Unlike many other books of its type, it is possible to read No Angel and enjoy it, even if you prefer not to read the sex scenes. It is well structured, complex and above all highly readable. Not that I am suggesting that you do leave out the sex! Marian Malone writes some of the best, most exciting, varied sex scenes I have ever read. Thoroughly entertaining!

Kurzbeschreibung Leather. Fetishes. SM. The words conjure up a multitude of feelings for erotic fiction writer Sally Avery, for Sally has a secret. Despite her explicitly written prose, she is relatively inexperienced when it comes to forbidden pleasures. Frightened by the depth of her yearnings, she starts to explore her darker side with other women. Her journey to self-discovery begins in the sleazy, sexy fetish clubs of Brighton...
