Original And Still (One Of) The Best Von Dirty Bird 30 year old insurance assessor, Kate, starts to question her safe but boring life after she is held at gun point by an escaping criminal, whom she later sleeps with. She then proves that she is definitely no lady when she goes with the wildly erotic Raoul and his four friends to the isolated Maison du Lac in the Pyrenees. But Kate quickly discovers that none of the new men in her life is quite who he seems to be. No Lady was one of the first books published under the Black Lace imprint, and it is good to see it back in print. Although less sophisticated than later entries in the imprint (by which I mean:- the sex is less varied), Saskia Hope has written a gripping erotic novel that keeps you engaged to the very end. Unfortunately, the author gets so caught up with the plot that the sex sometimes suffers. Although there is a constant sexual atmosphere to the book, the actual set-piece scenes don't have as much variety as perhaps they could. I know that if I was stuck up a mountain with 5 gorgeous men I could probably think of a few interesting ways to pass the time. But don't let my few negative comments put you off. This is a first-rate sexy adventure, which I have read several times since it was first published in 1993.

Kurzbeschreibung 30-year-old Kate walks out of her job, dumps her boyfriend and goes off in search of adventure. And she finds it. Held captive in the Pyrenees by five men who believe they can do what they wish to her - her holiday plans seem to be taking an unpredictable turn. It's a world of outlaws, where the love-making is as rough as the landscape, and where the taste for sex and the need for adventure collide. Synopsis High in the Pyrenees, where the landscape is as rough as the lovemaking of the outlaws and villains who use the hills as their hideout, Kate McIntyre is held captive as a result of her fearless taste for adventure. Only this sense of danger can satisfy her erotic longing for thrills.
