intriguing 2 Von ESKAELLE The book written from the perspective of the main character, Elizabeth Joy Rider (called

Beth), who learns that there's more to this world than she'd known. She's thrown into the midst of things and has to figure out who's friend, who's foe and who is she herself. I enjoyed reading Nolander a lot. Great storyline, authentic characters and a good pace cost me a couple of hours of sleep. Highly recommended! (Side note: there was one thing irked me a bit. Beth's hometown is called Dorf, the German word for village. As a native speaker I stumbled over it whenever "in Dorf" was mentioned, it reads really strange in another language.) 0 von 0 Kunden fanden die folgende Rezension hilfreich. intriguing... Von Morgan These days I'm quite reluctant to start anything that is marked as part of a series, because usually it either ends with a HUGE cliffhanger or just sucks. This one was different, though. Yes, it sort of ends with a cliffhanger, leaving me curious and full of questions. But on the other hand, the story also was somehow finished. It is a strange, and somewhat frightening, world Becca Mills created there. And interesting. And she clearly can write. I liked it. A lot. 0 von 0 Kunden fanden die folgende Rezension hilfreich. YA-story with much cliffhangers Von Emily Milomil On one hand the story amazed me with speed and new sides. At the other side I've got so much questions about all. You can say a short telling story with much inside but it needs another book to clear all the openings. For the first book it is OK. But not more!

Kurzbeschreibung Beth Ryder knows she's different. In a tiny rural town, being an orphaned and perpetually single amateur photographer crippled by panic disorder is pretty much guaranteed to make you stick out like a sore thumb. But Beth doesn't understand just how different she really is. One day, strange things start cropping up in her photos. Things that don't look human. Impossible things. Monstrosities. Beth thinks her hateful sister-in-law, Justine, has tampered with her pictures to play a cruel joke, but rather than admitting or denying it, Justine up and vanishes, leaving the family in disarray. Beth's search for Justine plunges her into a world she never knew existed, one filled with ancient and terrifying creatures. Both enemies and allies await her there a disturbingly sexy boss, a sentient wolf with diamond fur, body-snatching dinosaur-birds. Separating the allies from the enemies is no easy chore, but in this strange new world, allies are a necessity. A plot is afoot, and Beth whose abilities no one seems able to explain may well hold the key to solving it. Nolander is the first novel in the fantasy series Emanations. The second novel, Solatium, and a short story, "Theriac," are also available. Kurzbeschreibung Beth Ryder knows she's different.
