**Von Matthew Mather : Nomad: A Thriller (The New Earth Series Book 1) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Nomad: A Thriller (The New Earth Series Book 1) (English Edition):

Great plot, great charactersVon Hoener, BirgitPlots within plots, from the past to the present, and overall the threat of .... something .... hitting Earth or putting it out of orbit.What could have been a confusing mix of plots was masterfully put together, slowly raising the tension until the very last page. The characters were brilliantly "designed", and although their actions were not always plausible to me, I could still understand the reason behind their reactions. The author showed how differently mankind might react to a global threat of extinction.The detailed description of what Nomad was, I must admit, went a bit over my head - I prefer the fiction bit in Science Fiction; if descriptions get too

scientific, I tend to just read over them, and might miss something of the plot this way. All in all, a great book, which seems to be the first in a series. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Great book Von Kevin I actually stumbled on this book while playing the fiction part of Universe Sandbox .I'm usually not much of a reader but found the idea so interesting that I had to get the book.I read through it in the stretch of a few days and now I can't wait for the next part. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Loved it Von Seamus Amazing science-fiction-thriller! My first book from Matthew Mather and it won't be my last. Luckily, he's got a few others to tide me over until the second part of this trilogy comes out next year!

**Kurzbeschreibung** Read the novel voted Science Fiction Book of the Year by Authors on Air Global network, 2 million listeners in 46 countries. Nomad is the first book in The New Earth Series, a genre-spanning, four-book epic from million-copy bestseller Matthew Mather. A COMING APOCALYPSE A MYSTERY FROM DEEP SPACE AN EPIC ADVENTURE THRILLER BACKED BY REAL SCIENCE. NASA discovers a mysterious object heading toward us. Humanity only has days to prepare. Can one family survive? Something massive is coming...and it's heading for Earth. That's what astronomer Ben Rollins is told by NASA after being dragged out of bed in the middle of the night. His first instinct is to call his daughter, Jessica, who's vacationing in Italy with his wife. It's a hundred times bigger than the sun, Ben tells them. Somehow we can't see it yet, and we don't know what it is, but they're calling it Nomad--and in just months, the Earth may be destroyed. But how did they miss detecting it until now? The world erupts into chaos as the end approaches, and Ben discovers his wife and daughter are trapped in Europe. The key to Nomad's mystery--and humanity's ultimate survival--rests in the answers Ben pieces together from his old Cold War-era research papers, in the midst of a desperate scramble across continents to find his family before Nomad swallows the planet.

**ABOUT** Nomad is the first novel in a four-book saga that follows one family's fight to survive on a new Earth after a whole new category of disaster--all the more frightening as the science behind it was developed by a team of astrophysicists from CERN, SETI, and the Keck Observatory. This sweeping epic comes from the mind of author Matthew Mather, whose novels have sold over a million copies, been translated into 18 languages, and published in 23 countries. Nomad was s best selling book in adventure, dystopian, hard science fiction, and post-apocalyptic categories in recent rankings \* s bestseller in the techno thriller and terrorism thriller categories All the books in The New Earth Series are now available on :
