storyline... Von Major Storm...but still a great read. This book in the Chrissy McMullen series is different from the others. There's basically 3 different storylines: Micky Goldenstein's problem, Officer Tavis' problem and Laney's problem. Neither of them really develops to a gripping, action packed storyline. I kept asking myself where this is going, when the action was gonna kick in, and towards the end had forgotten about the first 2, causing the ending to be kinda weird. 4 stars though, coz the book is written in true Greiman fashion. I caught myself laughing out loud a couple of times at the mental notes Chrissy takes and the retorts she gives. The part where she spontaneously crashes that Hollywood party is hilarious. That's so McMullen :) So if you liked the first few books, don't mind a weak story and thrive on Christina's stupidity: Go get this book *thumbs up* Plus: there's loads and loads of Rivera in it :D 0 Kunden fanden die folgende Rezension hilfreich. beach book... Von Almut Masbaum... a good one, enjoyed myself a lot. The previous stories are good as well - of course i love serials, books and TV :o) If you do, too, Elaine Viets' Dead-End Job Mysteries are a good read as well, beach or no beach...
