Belfast - Capital of Northern Ireland in very fragile peace-times ...Von Miki101.Micha ... is really still about to be blown up every single day of her existence. Northern Ireland is juggling since 1998, right after the Peace Process of Holy Friday, like a drunken man on a rope who's trying to cross the Grand Canyon. In this more than fragile situation Detective Inspector Ian Wilson and his team of the Police Constabulary of Northern Ireland are rather without clues to resolve first one, then another murder in real execution "sectarian style" -committed to 3 protestants deep in their home territory of Belfast. Everyone surely wants these murder cases solved, but no-one wants to open up to the Fuzz. Into this more than difficult situation DCI Wilson gets a new member forced onto his staff: Moira, a young, very nice and very studied, promising redhead and - catholic! In a almost 100 % protestant crew! Heaven's gates are open - and very close co-workers of our good, honest and old-fashioned womanizer cop do not help with their bigot opposition to the new member of the Murder Squad. But it will be her, with her wits and tricks with the "New Technology" aka basic computer-work to find a tiny feeble trace than could lead to the assassin. Who is a psychopath with all his screws loose - ex-military, sent by whom and to cause what in Belfast?Dribbling all possible potholes - all more or less political - the count of the victims is bound to rise. Will Belfast prove herself once more for being the town with the highest murder-rate in Great Britain? Or does our good cop Wilson prove once more his being the very best copper - admired by the young recruits but seing himself yet on the street to a total burn-out.A new writer with an interesting protagonist, and his crew, too, seems to be very promising. The plot is highly explosive, with twists and turns - and all types of politicians You will more than once desire to give a fat kick into their behinds. And justice - ok - in a way it will be made, but not so much for poor DCI Wilson. Who hates all kind of often cover-up politics inside and out of the police forces .Only four stars for this highly political police procedural, because there are still some lengths in the plot, and some solutions did not totally satisfy my sense of justice given to our Cop at the end. I bought the new book by Derek Fee " Shadow Sins - Bookn2 of DCI Wilson", too, and it starts at a relatively high speed. And - at Euro 1,02 is really a gift! I surely will write about it, too.
