**Von Eileen Dreyer : Nothing Personal (A Suspense Novel) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Nothing Personal (A Suspense Novel) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. This one will keep you up all night...Von Ein KundeI highly recommend this book to anyone, but especially to all other nurses out there who can appreciate what it's really like in the front lines of health care today. The story is good, and it keeps you guessing. If you don't have any medical background, you will still love this book. But if you do, you will pass it

along- as I did- to all of your coworkers. The characters are strong, especially the title character Kate Manion.0 von 0 Kunden fanden die folgende Rezension hilfreich. ExcellentVon Ein Kunde"Nothing Personal" is fast-paced and very suspenseful, with twists at the end of most every chapter. The protagonist is an ER RN, and the book is terrifyingly precise in its view of nursing and healthcare today. This was refreshing compared to the misconceptions most people have in regard to nurses and their role. I couldn't put it down.0 von 0 Kunden fanden die folgende Rezension hilfreich. Murder and hospital politics from an E.R. nurse's viewVon Ein KundeThis story is interesting, but I dislike the main character. She judges everyone, and each fail to come to her high standards. She swears like a dockworker, not a nurse, it gets in the way of the story

KurzbeschreibungTrauma nurse Kate Manion is viewing her own hospital from the other side. Badly injured in an auto accident, she's laying in her own ICU, strapped down, paralyzed and unconscious. And yet, somehow, she managed to kill her nurse.The murder was an accident; Kate swears. But the accidental deaths keep happening. Has someone taken Kate's mishap as a mandate to kill off anyone making life difficult for the staff?As corpses pile up, Kate realizes that only she can stop the serial killer who is acting out the fantasy of every staff member at St. Simon's Hospital.With only a burned-out forensic pathologist to help her, Kate must wade through greed, politics, secrets and suspicion to unearth a murderer she doesn't want to find; before he or she strikes too close to home.REVIEWS:"A wicked prescription guaranteed to give you sleepless nights" ~Nora RobertsOTHER SUSPENSE/THRILLERS by Eileen Dreyer:A Man to Die ForBrain DeadBad MedicineIf Looks Could KillABOUT EILEEN DREYER:New York Times bestselling author Eileen Dreyer has been inducted into the Romance Writers of America Hall of Fame, nominated for the Anthony Award and is a retired trauma nurse. Also trained in forensic nursing and death investigation, Eileen doesn't see herself actively working in those fields, unless this writing thing doesn't pan out.From Publishers WeeklyToward the end of this overlong whodunit about the murders of St. Louis medical practitioners, Dreyer's protagonist perceives the obvious: "Hospitals . . . were terrifying, dangerous places to be." Indeed, the hospital here is a loony bin. Kate Manion, a critical care nurse and petulant rebel, sustains serious injuries in a car accident. Racked by pain and further tortured by an inept nurse, "Attila the Buns," Kate lunges for her tormenter, when Attila expeditiously expires. It is the first unexpected death at a Catholic hospital dubbed "St. Serious Money," and Kate is naturally a suspect. Despite her crutches, she tracks a serial killer who sends her notes in pidgin English and apparently makes use of hospital drugs to poison staffers. One victim is Kate's roommate Tim, a closeted gay surgeon. After Kate's lover, B.J., nearly meets his maker, a drab little nun known as "Sister Mary Polyester" confesses she's an avenging angel. But Kate presses on to confront a more sinister culprit, a corporate greedmeister. Some of Dreyer's ( If Looks Could Kill ) writing is vivid, but her plot is as contrived as the cartoon names of some of her characters, who include Mary Cherry, an attractive FBI agent. Enough already. (Mar.) Science Fiction FantasyCopyright 1994 Reed Business Information, Inc.KurzbeschreibungTrauma nurse Kate Manion is viewing her own hospital from the other side.
