Von Demelza Carlton : Ocean's Infiltrator (Ocean's Gift Series Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Ocean's Infiltrator (Ocean's Gift Series Book 2) (English Edition):

less gripping than its predecessor. The reader rejoins Sirena a mermaid as she wrestles with decision of what to do about her human lover, Joe, who has discovered her watery secret. Her species demand his death, and yet Sirena is conflicted by what she is told to do, and what she feels she must do. The mythology begins to expand with hint of other fantastical creatures beneath the waves, as well as portents of doom on the ocean floor. In that regard the atmosphere of suspense reminded of the brilliant *The Abyss*. An unexpected pregnancy adds further tension to the relationship as it weaves in legendary laws and is a counterpoint to the self righteous of some of the characters; in particular it provides a gripping commentary on what we consider to be civilized behavior. Concepts of duty, honor and being a patriot all come into play, and there are strong messages for contemporary culture shown through allegory with Atlantis and the breeding/spawning cycles of the underwater creatures. A gripping read.

Kurzbeschreibung Could you kill the man you love to protect your people? Capsize his boat. Lure him into the water. Summon sharks... How long will Sirena let Joe live, now he knows her secret? Terrified of humans, Laila leaps at the chance to visit the Atlantic Ocean with her mother, Cantrella. When the welcome they receive is colder than the surrounding seas, Laila learns that her own kind can be far more frightening than any man. As secrets are revealed and sirens infiltrate the human population, will anyone be safe on land or sea? Trouble, take two. This is Demelza's second contemporary fantasy book in the Ocean's Gift series, with more mermaids and mayhem than ever. You'll never look at mermaids the same way again.

ber den Autor und weitere Mitwirkende Demelza Carlton has always loved the ocean, but on her first snorkelling trip she found she was afraid of fish. She has since swum with sea lions, sharks and sea cucumbers and stood on spray-drenched cliffs over a seething sea as a seven-metre cyclonic swell surged in, shattering a shipwreck below. Sensationalist spin? No - Demelza tends to take a camera with her so she can capture and share the moment later; shipwrecks, sharks and all. Demelza now lives in Perth, Western Australia, the shark attack capital of the world. The Ocean's Gift series was her first foray into fiction, followed by the Nightmares trilogy.
