TouchingVon Ein KundeThis was my second book and it was a touching love story. It starts off at the present when

Daphne gets caught in an accident. She goes back to the time when she first meets Jeff and how she lost him and how she gave up. Then John comes along and it tells how how she also lost him in the same tragic way she lost Jeff. Then it moves along after that and how she finally gave up on love then it goes back to the morning when she finally woke up from the accident. I can say that it has a pretty sweet ending. I can't tell you all, I'll spoil the surprise! note: This is such a good book! Try it and you won't be sorry!0 von 0 Kunden fanden die folgende Rezension hilfreich. A little hard to follow...Von Ein KundeUsually I hate the movie adaptations of Ms. Steel's novels because they always change a lot of things. But in this case, I didn't mind at all. I think the movie version of this book, starring Lindsay Wagner and Barry Bostwick is far superior to the novel. I thought Justin was scum and you'll hate him even more in the movie! It's on Lifetime every once in a while, or on video. You'll love it!0 von 0 Kunden fanden die folgende Rezension hilfreich. ExcellentVon Ein KundeThis is the first Danielle Steele book I read, and immediately fell in love with her books. I started going back and reading previous books. It broke my heart to read about the fire. I liked the flashback technique. I really felt for this mother going through such a hard time. This is on my recommended reading list.
