Romantic erotic short story with some depth but somehow not enough...Von MagritteI have discovered Laura Kaye a couple of month ago with her book Hearts In Darkness and I loved her writing and her ideas. Now this is her 4th book I am reading. The book is the sequel of Her Forbidden Hero, the story of Marco and Alyssa--Although both books can

be read as standalone but it is nicer to read them in order. Brady Scott and Joss Daniels are two characters having deep emotional scars, having to fight their own fears and demons to be together. Brady Scott is an Army Special Forces soldier, back to the US in order to heal his wounds most of which in fact are from his youth and his abusive alcoholic father. As soon as arrives he leaves his few boxes in his new home and goes for a run. This is when he sees a beautiful mysterious woman crying. His body and soon his heart react and he is drawn to her, for a one-night only thing. Joss Daniels has never felt wanted or loved, rejection by other have ruled her life. When handsome, fun and intelligent Sgt. Scott flirts with her she wants to feel free and liked for one night at least. Moreover her body reacts strongly to his, so why fight her desires. When both find out that they are neighbors however and that their attraction was not only a one night thing they have to fight their own desires being convinced that they are not able to have a relationship. When Joss gets pregnant however things might have to change. I had a hard time with the fact that the sexual part is dominating the first half of the story and this is mainly on what their relation is built. They have a feeling that the other has scars as well, but I miss some real discussions. The story is fluid and fun to read and I also liked the basic plot about how they meet and how they can't avoid each other. Is a nice romantic erotic short story (about 150 pages) with very fun and deep characters and hot sex, but I missed some in depth discussion. Enjoy the read MBTM.
