**Von Rowan McBride : One Shot (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised One Shot (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Nice but not fantastic Von Querleser A nice story for a boring afternoon, but not overly dramatic, not really well developed. Just a short story with a nice idea, though it's more about how do the two guys get together and how are they getting their

HEA.

KurzbeschreibungGenre: LGBT Science FictionNick Carlyle understands the intricacies of his job better than anyone. He lives to crunch those numbers and his skills are valued throughout the company. If his personal life might be lacking, he doesn't notice, especially whenever he steals a harmless glance or two at Riley Jameson's tight body. But he's the boss, and that means look but don't touch. When a universal flu shot is developed, it's hailed as a miracle, and rightly so. But the seemingly harmless side effects begin to change the world, warping the statistics that Nick's always used to guide him through life. Everything he thought he knew is suddenly upside down. No one changes as much as Riley. Suddenly the young man is bigger, stronger. He's also aggressive in ways Nick isn't prepared for, and for the first time analyzing the numbers does nothing to help the situation. Now, his numbers only add up when it comes to Riley. Publisher's Note: This book contains explicit sexual content, graphic language, and situations that some readers may find objectionable. Anal play/intercourse, male/male sexual practices.
