**Von Sylvie Kurtz : One Texas Night (A Romantic Suspense Novel) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised One Texas Night (A Romantic Suspense Novel) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Great Writing, Not so great StoryVon Ein KundeSylvie Kurtz is a fine writer who joins the Intrigue line with "One Texas Night." Telling the story of a woman who might have witnessed her neighbor's murder, Kurtz proves that she has a

great voice that deserves to be discovered. If the story ultimately disappoints, it's not because of her writing style. She has a definite way with descriptions, painting pictures with words, and some of her sentences deserve to be reread and savored on their own. The problem is, the story never goes anywhere. It boils down to little more than 200 pages of "Grady wants Melinda to remember, Melinda doesn't want to remember, sparks fly, he goes away....He returns, he wants her to remember, she doesn't want to remember, sparks fly, he goes away...Grady returns, he wants Melinda to remember..." See a pattern? Some actual plot movement begins in the last fifty pages, though it hardly matters, since those who read enough mysteries have probably figured out the identity of the villain long before. In a better book, the revelation of her neighbor's killer would have been the false ending before the more surprising, satisfying one. Alas, it doesn't happen, and it's hard to find any satisfaction with how the finale plays out. I have no doubt I'll pick up her next book, if only to enjoy some fine writing. Hopefully something will happen in that one.

KurzbeschreibungA Romantic Suspense Novel:Everything's more intense in the heat of a Texas night! Melinda Amery awoke to the double-barreled deep blue eyes of Lt. Grady Sloan. He wanted answers about a murder. Only she had none. She had no recall, except she knew nothing good would come from remembering... Grady was the kind of cop who couldn't let go until he got what he wanted. With his job on the line, he needed to break the case. But the only witness had amnesia.Would her hidden memories reveal more than either of them wanted to know...?Awards:A Romantic Times nomineeAbout the Author:Flying an eight-hour solo cross-country in a Piper Arrow with only the airplane's crackling radio and a large bag of MMs for company, Sylvie Kurtz realized a pilot's life wasn't for her. The stories zooming in and out of her mind proved more entertaining than the flight. Not a quitter, she finished her pilot's course, earning a commercial license and an instrument rating. Since then, she's traded in her pilot's license for a keyboard, where she lets her imagination soar to create fictional adventures that explore the complexity of the human mind and the thrill of suspense. She has written 20 books.
