Von Elizabeth Lowell : Only His before purchasing it in order to gage whether or not it would be worth my time, and all praised Only His:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. _Only His_ is REALLY good!Von Ein KundeHaving read countless romance novels, Ms. Lovell does a great job making the

characters interesting... and not shallow. The dialogue is well-written, and the descriptive passages of the mountains are magnificent. The romance is pretty hot too! However, the main female character, Willow, is a bit overdramatic and dependent on her MUCH stronger male counterpart. The interaction between Willow and Caleb is pretty stereotypical. This accounts for the 4 star rating behind stronger, and more inventive books by other authors. Overall a really good read. I have already purchased the next two in the series... hope they prove to be as exciting.

0 von 0 Kunden fanden die folgende Rezension hilfreich. Okay, but similar plots..... Von blazeI agree with reader from Singapore. The book is quite okay, but the plots are very similar with her other 'Only' books. It's okay for fun reading, but for keeps? Naaah..... there are other Elizabeth Lowell's books worth keeping. Not this one, sorry.

2 von 3 Kunden fanden die folgende Rezension hilfreich. First in a Series Von Natasha Abed "Only His" was quite a good book - Caleb and Willow are interesting characters, although I felt that Willow could have been stronger (especially since she survived the War between the States). Nevertheless, it doesn't detract from the emotional rollercoaster ride that takes the reader from despair and danger to stomach-clenching passion and love. Ms Lowell tends to use these ingredients in all her novels, with great success. It does get irritating, however, in that it always takes a catastrophe of sorts for the hero to realise his love, while the women are prepared to live empty, bleak existences without their true loves. Not one of the heroines show enough gumption to fight for their loves, but magnanimously sacrifice their happiness for what they see as 'shackling' the heroes from their dreams. I have to say, though, that EL's historicals always find their way to my keeper shelves.

Kurzbeschreibung Escaping the ravages of the Civil War, a gently reared lady must leave behind everything she knows -- and trust her life and her future to a dangerous gunfighter with a passion for vengeance. A team of prize Arabian horses is all that Willow Moran has left and Caleb Black is the only man who can help her reach her brother in the Colorado Rockies. But she fears this stranger who burns to avenge the wrongs of treacherous men. For Caleb is as wild and unpredictable as the uncivilized land he loves. Yet, though she challenges him at every turn, the spirited southern lady knows this proud, enigmatic loner is her destiny. And no matter what peril awaits, they must face it together for Willow has become a fever in Caleb's blood . . . awakening a need so fierce that he would defeat the devil himself to possess her.

From Publishers Weekly In this tedious historical romance, Lowell (*Tell Me No Lies*) gives barely enough plot to keep a short story moving. Willow Moran, a West Virginian who lost her parents and most of her possessions during the Civil War, is traveling west with her remaining valuables--five Arabian horses--to find her brother Matt, who is prospecting for gold. Her guide from Denver to the San Juan mountains is former Army scout Caleb Black who, unbeknownst to Willow, also is hunting Matt; on her deathbed, after bearing an illegitimate baby, Caleb's sister named Matt as her seducer. The largely uneventful journey, complicated only by ruffians who are pursuing them (to steal Willow's horses and finish a fight begun in Denver with Caleb), occupies a substantial portion of the book: Willow and Caleb spend much of their time riding, eating and lusting after each other. By the time the hero, ``with a silent curse at his unruly desires," indulges in yet another assessment of the heroine, wondering ``how her hair would feel spilling over his naked skin," the reader is likely to be silently cursing right along with him--and brother Matt isn't even close to being on the horizon.
