Nette Geschichte zum WohlfhlenVon Steffi JFortsetzung von Set me free.Diesmal geht es um Charlottes jngere Schwester Emily. Emily ist von Ben, Charlottes bestem Freund schwanger. Er liebt sie, sie hat Bedenken wegen ihrer

bevorstehenden Scheidung. Altes loslassen und Neubeginn wagen. Schnel Roman, viele verschiedene Charaktere, die das Buch lebendig machen. "Frau" kann sich entspannt in die Geschichte fallen lassen und sich wohlfhlen.

Kurzbeschreibung Everything happens for a reason, they say. And sometimes the reason is you're stupid and make bad decisions. Sleeping with her sister's best friend is one of the dumbest things soon-to-be divorcee Emily Evans has ever done. But she's determined to put it behind her and move on. She's walked away from her cheating husband, managed to make a new friend, and found herself a real job and somewhere to live so she doesn't have to couch-surf any more. Everything should be falling into place but for one problem there are some mistakes from which you can't move on. Meanwhile, Ben Cameron is getting on with his life. After all, it's the only thing to do once your heart has been stomped on by the woman of your dreams. Expanding his business and getting cosy with the girl next door are proving welcome distractions. He's even happy to babysit his nephew, as long as he can to hand him back when he's done! And thankfully, Emily Evans, the woman with the heavy boots, is avoiding him like the plague. But Emily can't avoid him forever, and when she drops a bombshell that turns Ben's world upside-down, suddenly, getting on with his life takes on a whole new meaning.

ber den Autor und weitere Mitwirkende Jennifer Collin writes quirky, and sometimes gritty, love stories about ordinary people dealing with what life throws at them. She lives in Brisbane, Australia, with her husband, two noisy children and a cantankerous cat. She used to party, but now her idea of a good time is an uninterrupted sleep. These days, her characters do her partying for her, and she doesn't necessarily let them sleep.
