Von Catherine Coulter : The Cove (An FBI Thriller) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Cove (An FBI Thriller):

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. The

CoveVon nvvb@mindspring.comIf you are looking for a mystery, with a little romance thrown in, pick up *The Cove*. It is the story of Sally Brainerd and FBI Special Agent James Quinlan. Get involved in the twists and turns of the mystery of who killed Amory St. John, Sally's dear papa. Learn about the history and the present as Sally knows it. Be ready for the many cases of the FBI that all connect at the end in a very unique way. I have read this book three times, I like to think of it as once for each mystery. I enjoyed it throughly. It is the first of Coulter's contemporary books I have read, and I am looking forward to reading the rest of the "FBI" series, as I call them.1 von 1 Kunden fanden die folgende Rezension hilfreich. A complex story with complex charactersVon Ein KundeI enjoyed reading this book. I have read some of the customer reviews and found out the the reason that "The Cove" receives some low marking is because that the story's plot is very complicated. That is perhaps the reason I like this book. The beginning and the end tie well together. Sometime a person just have to read twice before judging a book.The only disappointment is that the male hero is a little too unreal. And since I read "The Maze" first, I found the character very disappointing. One might think the heros in both of these books are the same character. The only difference is that one is a computer expert. And ... oh ... why does both the the heroines have nightmares and that both nightmares cause the same result.?1 von 1 Kunden fanden die folgende Rezension hilfreich. Coulter's newest fan!Von Ein KundeTHE COVE was the first Coulter book I read. I was visiting a family member recently, and she thought I might be interested in this book. She knew me too well! I finished the book on the return flight, and couldn't wait to get to a bookstore to pick up the next two (*The Maze* and *The Target*). *The Cove* was full of suspense, twists and turns and even though I suspicioned that the ending would be different, it still through me for a loop!This book really grabbed my attention, and now Catherine Coulter has become one of my favorite authors.

KurzbeschreibungIn this "fast-paced" (Publishers Weekly) page-turner, the daughter of a murdered high-powered lawyer seeks sanctuary in a quaint little town, only to learn she can't escape her past-or FBI Special Agent Dillon Savich.In this "fast-paced" (Publishers Weekly) page-turner, the daughter of a murdered high-powered lawyer seeks sanctuary in a quaint little town, only to learn she can't escape her past-or FBI Special Agent Dillon Savich.
.deCatherine Coulter has written a truly suspenseful romance in this story of Sally Brainerd, hiding in a small town from the enemies who killed her father, and FBI agent James Quinlan, who believes she's the key to the murder he's trying to solve. Sally thinks she'll be safe in *The Cove*--but will she?.comCatherine Coulter has written a truly suspenseful romance in this story of Sally Brainerd, hiding in a small town from the enemies who killed her father, and FBI agent James Quinlan, who believes she's the key to the murder he's trying to solve.
