Von Rick Yancey : The Curse of the Wendigo (The Monstrumologist) before purchasing it in order to gage

whether or not it would be worth my time, and all praised *The Curse of the Wendigo* (*The Monstrumologist*):

Kurzbeschreibung Flesh-eating danger abounds in the chilling sequel to *The Monstrumologist* that is as fast-paced, elegant, and yes, gruesome as its predecessor (*Publishers Weekly*, starred review). While Dr. Warthrop is attempting to disprove that *Homo vampiris*, the vampire, could exist, his former fiance asks him to save her husband, who has been captured by a Wendigo creature that starves even as it gorges itself on human flesh. Although Dr. Warthrop considers the Wendigo to be fictitious, he relents and performs the rescue but is he right to doubt the Wendigo's existence? Can the doctor and Will Henry hunt down the ultimate predator, who, like the legendary vampire, is neither living nor dead, and whose hunger for human flesh is never satisfied? This second book in *The Monstrumologist* series explores the line between myth and reality, love and hate, genius and madness. Pressestimmen* "Lush prose, devilish characterizations, and more honest emotion than any book involving copious de-facings (yes, you read that right) ought to have... Yancey has written both books in the *Monstrumologist* series as if they were the last, going for broke and playing for keeps, no matter who or what ends up on the chopping block. This is Warthrop's *The Hound of the Baskervilles*; if we hold our breath, maybe part 3 will come faster." --Booklist, starred review "A page-turner of an historical horror that will simultaneously thrill readers and make them sick to their stomachs." --Kirkus s* "The chilling sequel to Yancey's Printz Honor book, *The Monstrumologist*, is as fast-paced, elegant, and, yes, gruesome as its predecessor." --Publishers Weekly, starred review "The *Curse of the Wendigo* is certain to be popular with fans of *The Monstrumologist* (S S, 2009), and the horror genre in general." --School Library Journal "Fans of Rick Yancey's first book in this series, Printz Honor Award winner *The Monstrumologist* will not be disappointed by this sequel. Yancey maintains his excellent, literary fiction style... Once again, Yancey skillfully weaves a tale that touches readers at a visceral level and will linger long in the imagination. VOYA "The first-person narrative is brooding and atmospheric, conveying just the right sense of mystery and horror." --The Horn Book Kurzbeschreibung Flesh-eating danger abounds in the chilling sequel to *The Monstrumologist* that is as fast-paced, elegant, and yes, gruesome as its predecessor (*Publishers Weekly*, starred review). While Dr. Warthrop is attempting to disprove that *Homo vampiris*, the vampire, could exist, his former fiance asks him to save her husband, who has been captured by a Wendigo creature that starves even as it gorges itself on human flesh. Although Dr. Warthrop considers the Wendigo to be fictitious, he relents and performs the rescue but is he right to doubt the Wendigo's existence? Can the doctor and Will Henry hunt down the ultimate predator, who, like the legendary vampire, is neither living nor dead, and whose hunger for human flesh is never satisfied?
