Nice read!Von claudia dAfter being quite disappointed with 'Dating a Cougar' by the same author, I was not sure whether I really wanted to read this book. Now I'm happy I gave it a chance, because it's quite a page-turner. In fact, I liked it so

much that I already acquired the next book of the series (which is not free of charge). I look forward to the new adventures of Gwen, Dorian, Liam and Ania in Book Two and, perhaps, in Books Three and Four as well.

KurzbeschreibungSpace is the final frontier, but it has never been this sexy or fun. Captain Liam Synar of the spaceship Liberator made a huge mistake concerning the female he mated. Putting his familys daemon inside Ania two years ago had been an desperate act to save her when shed almost died saving him. Though hed rather be dropped into a Torian volcano, instead he has to go to Pleiades and make the situation right. Malachi, The Daemon of Synar, recently killed to protect Ania and his clueless mate is on trial for the crime. Liams time of keeping Ania safely unaware of her fate has at last run out. Coveting Malachi's enormous power, Conor Synar, his exiled evil brother hunts his ship, wanting to capture the powerful and destructive alien that Liam's life mate unknowingly hosts. The only way to protect her from now on is to keep her by his sideLiam has no choice but to tell his mate the truth about what he did, even if it means facing the wrath of the only female hes ever loved. A man in love is a desperate, crazy being. How impossible was it to hope she might forgive him? KurzbeschreibungSpace is the final frontier, but it has never been this sexy or fun. Needing to satisfy both sides of her brain, she is a cross-genre author of contemporary, fantasy, and paranormal romances. Her books appear on bestseller lists for humor, romantic comedy, space opera, and more. She craves laughter from her readers and focuses her attention on making that happen as often as possible. She loves to hear from anyone who has read her books.
