**Von Minette Walters : The Dark Room (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Dark Room (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen4 von 4 Kunden fanden die folgende Rezension hilfreich. A Suspenseful ReadVon capriciousI have read several books by Minette Walters and rate this as one of her best. The main character, Jinx Kingsley, has amnesia after a car accident and we are left wondering (as Jinx is)about her involvement in some pretty gruesome murders. A great concept, well handled by the author to create a suspenseful

read. The characters are interesting and the pace is good. The only reason I have not given it a five star rating is that I felt that the ending was a bit too happy and optimistic - out of character for some of the personalities in the story. If you have read and enjoyed any of Minette Walters' books before, then you will not be disappointed with *The Echo*. If you have not read one of her books, this is a good first read. If you like *The Echo*, then try *The Ice House* and *the Sculptress* as well.

1 von 1 Kunden fanden die folgende Rezension hilfreich. Another one of Minette's good books!

Von Lhamo Topgyal A very very interesting book that catches you from the first page to the end of the book. A book that can take you from a very unpredictable beginning to a very interesting story and as usual a happy ending, except for the tragedies happened in the story. The main character being Jinx Kingsly, suffering from amnesia after her fiancée decided to marry her best friend and her car crashed which seemed to be a suicide attempt. For Jinx that was hard to believe but she couldn't remember what actually happened and couldn't contribute anything to the investigations. She was the prime suspect when the dead bodies of Jinx's fiancée and his new girlfriend were found in middle of the forest. The story goes on an attempt to bring back Jinx's memory by her doctor and the attempts of the detectives to find out who killed them. Involves many people and describes the characters of the people in the story, a look at human nature and the different kinds of people in the world. Happy Reading!

Von Karen Bierman Hirsh I have read all of Minette Walter's books and I am constantly surprised. With each book her writing gets stronger and the plots get even more interesting. She truly is a master of suspense. I find that I can't put her books down. Walters was able to take the amnesia plot and weave it in a way that makes it seem as if it were a new plot twist. While Minette does not use repeating characters in her novels she never seems to have a problem getting her reader immediately feeling involved with the characters or the story. I highly recommend reading all of her books.

Kurzbeschreibung Something else had happened . . . Something so terrible that she was too frightened to search her memory for it . . . The newspapers reported the case with relish. Jane (Jinx) Kingsley, fashion photographer and heiress, tries to kill herself after being unceremoniously jilted by her fiancé, who has since disappeared together with Jinx's best friend Meg Harris . . . But when Jinx wakes from her coma, she can remember nothing about her alleged suicide attempt. With the help of Dr Alan Protheroe of the Nightingale Clinic, she slowly begins to piece together the fragments of the last few weeks. Then the memories begin to surface . . . memories of utter desperation and absolute terror. 'Violence may well be offered to anyone who tries to part you from this marvellous, dramatically intelligent novel. It shimmers with suspense, ambiguity and a deep, unholy joy' Frances Fyfield, Daily Mail 'Guaranteed to burn the midnight oil' Mike Ripley, Daily Telegraph.

de As readers of *The Echo* have already discovered, Walters knows how to spin a fine web of terror and psychological deception out of the most familiar ingredients. This brooding and engrossing book, just out in paperback, begins with that slightly frayed item of genre linen, the heroine waking up in a hospital and not remembering how she got there. But Walters quickly sets a lively, inventive table: not only has Jinx Kingsley forgotten her auto accident, but also the murders of her fiancé and her former best friend that preceded it. Of course Jinx didn't do it, and of course Walters will get her off the hook--or will she?
