HilariousVon A.F.H. TintenkriegerBeing the conclusion of the Star Force cycle this was again a good read of Riggs Piggs adventures.A helter-skelter sci fi roll through nanotech and intelligent usage of such, of aliens and ancients the Star Force series sometimes reminds me of The Hitchhikers Guide as it doesnt take itself too serious.If you are looking for more down to earth, drab, dark sci fi this is not for you. Its about a light universe filled with wondrous creatures ... who are all out to kill each other in one way or the other.Some of the ideas are a bit strained, but overall it all fits into the slight crazy setting of BV Larsons Star Force.I loved the saga and am hoping for a new cycle that restarts humanity

adventure with the Worms, Blues and Centaurs.

Kurzbeschreibung Kyle Riggs sits uneasily upon Earth's throne. He's liberated his homeworld from a tyrant, only to replace him. In *THE DEAD SUN*, the ninth book of the Star Force Series, the Great War between life and the machines reaches its final chapter. Both sides have new technology and expanded industrial bases. Star Force and the machines attempt to exterminate one another in a final, glorious conflict. Along the way, Riggs finally learns who his real friends and enemies are. *THE DEAD SUN* is a military science fiction novel by bestselling author B. V. Larson. To read the first book in this series, look for *SWARM*, by B. V. Larson.
