Von Danelle Harmon : The Defiant One (The De Montforte Brothers, Book 3) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Defiant One (The De Montforte Brothers, Book 3):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Defiantly FantasticVon ShawnaLanneIt's been a little while since I was so engrossed in a bookthat I could not put it down. Happily enough The Defiant One was oneof those books.Celsie and Andrew the main characters in this rich story line are a well matched pair and the way that those two get together is fantastic. He is a inventor who

accidentally invents an aphrodisiac and well ... you just have to read it. All I have to say is that I usually skip sex scenes in romance novels because they are too contrived and boring but this was waaay steamy. They are also both charminly vulnerable and it was truly wonderful to watch them become friends and lovers. The only complaint that I have about this book is that there are two books before it, in the de Montforte saga, and the first book in that saga, *The Wild One*, is out of print. I know, waaa. This is a must read book that I hope is part of a must read series. It does have at least one book left in the series, slated to come out in January of 2001. I can not wait for it to be released.

Von miss tory I must say this is a great book it was wonderful and funny. Many people have complained that they have not read the first 2 and so this is confusing or such. Well I feel that this book carries it own. There is no need to read the others if you don't want to because this book tells a little about the other two. But I suggest you do anyways because they are excellent. Ms. Harmon is an excellent writer. I have Read the wild one and the beloved one and they are both great books First the wild Lord Gareth and Juliet then the beloved Lord Charles and Amy (both women are americans) and now the defiant Lord Andrew and Lady Chelesana. it was funny from the first moment and romantic to the last. I would give this book and its brother books 8 stars if I could. I can't wait for the last book about *The Wicked Duke of Blackheath*. READ IT! is all I can say

Von Ein Kunde In 1777 England, Lord Andrew de Monteforte shuns polite society ever since the fire that destroyed his health as well as his tolerance for simpering maidens. Andrew hides in his laboratory inventing things including accidentally creating an aphrodisiac. Andrew's older brother Lucien worries about the changes in his sibling's personality since the blaze. He marches physician after physician to look at his sibling, but Andrew scorns every one of them. When canine lover Lady Celsiana learns from Lucien that Andrew is experimenting on animals, she decides to confront the maniac in his lab. Instead, Celsiana is ushered into Andrew's bedroom where they are caught in what is obviously a set-up compromising position. Though both are loath to marry, they agree they must wed. As they fall in love, a nasty villain will murder anyone who tries to stop his efforts to steal Andrew's love potion.

Book three in Danelle Harmon's de Montefort siblings series is an entertaining, often times jocular Georgian romance that lives up to its predecessors standard of excellence. The story line is fun and breezy due to the interplay between the lead duet. At times WC Fields will come to mind as the animals steal the show from their human pets. Fans of a humorous historical romance will savor the story of the **DEFIANT ONE** and impatiently wait for the conclusion starring the Machiavellian **WICKED ONE**. Harriet Klausner

Kurzbeschreibung "The bluest of blood, the boldest of hearts; the de Montforte brothers will take your breath away." Blessed or perhaps cursed with a fiery temper, a strong will, and a blatant disregard for his brothers wishes, Lord Andrew de Montforte's only desire is to be left alone. But after being caught in a compromising position with tempting Lady Celsiana Blake, the brilliant and brooding scientist/inventor is forced into marriage in this fast-paced, jocular tale in which a supporting cast of beloved pets, the warm and eccentric de Montforte brothers, and the Machiavellian influence of the mighty duke of Blackheath once again play a role...
