A Fully Loaded Novel ~Von 1DreamReaderOrdo Lupus, book 2 is my first novel from author Lazlo Ferran. I was delighted to find it running along the shades of the Highlander series, of which I was a huge fan. Jean Razor, the main character is what I would call a highly desirable character, in the sense that a woman can, or at least I fantasized about this most mysterious historian, a soldier in is own right, who discovers a secret code that enables him to time travel, meeting a seductive sorceress and many interesting characters along his journeys. He appears to be strong, cunning and possess remarkable abilities as a Knight when his travels take him to medieval times. And yes, he is a great lover, not to mention the devotion he has for his wife, Rose. I especially found that endearing. He endures such rigorous adventures as he races against time to save Rose who has been kidnapped by the evil sorceress, who he also is in love with. Jean will struggle with himself as he comes to terms with the fact that he is a descendant from a lineage of the Ordo Lupus clan and will come face to face with many Supernatural beings in the story. I loved the ending and now am most excited to read book 1.The author has a well-crafted story here to entertain a broad audience, be it battle scenes, medieval history, romance, the occult or adventure. I would surely call this a fully loaded novel. A solid five stars for this masterpiece.
