Von Jon Rosenberg : The Digital Wolf (The Hidden Academy Book 2) (English Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Digital Wolf (The Hidden Academy Book 2) (English Edition):

Von Daisy Duck The Hidden Academy ist eine erstklassige, bisher noch völlig unterschätzte Fantasy-Serie. Ein cleverer Protagonist, Magie, die man auch nachempfinden kann und viele bekannte Figuren aus der Mythologie. Jon Rosenberg schreibt rasant, intelligent und schafft es, jahrtausendealte

Gttergeschichten mit modernster Technik zu verschmelzen. Percy Jackson und Harry Potter in einem, ist der Held David Ash ein Zauberlehrling mit Festanstellung. Im Verlauf der bisher erschienenen vier Bnde wchst er ber sich hinaus und rettet die Welten nicht nur einmal. Ich bin begeistert und hoffe, dass Rosenberg seinen Platz in der Fantasy-Literatur finden wird. Die ersten zwei Bnde sind auch fr Kinder und Jugendliche geeignet, der Band mit Persephone enthlt einige schwer verdauliche Szenen.0 von 0 Kunden fanden die folgende Rezension hilfreich. As with the first book of the "Hidden Academy" series again a very pleasant read -Von -Kundea nicely developed plot with thrilling adventures for the very likeable main characters and a very good surprise ending.But again: no 5th star because of the sloppy editing.0 von 0 Kunden fanden die folgende Rezension hilfreich. CustodiansVon Tino MertensWho would have thought being a custodians has so much suspense in it. Interesting mixture of story types and fun to read.

KurzbeschreibungAn early morning fitness run should be uneventful but not for David Ash. Before he knows it he has a megalomaniacal CEO, vengeful Fairies and a murderous piece of sentient software all on his case. Not to mention one big and seriously hungry Wolf. Caught between old foes and new ones Ash needs to find what has caused this toxic mixture to spill over into murder and mayhem and he needs to do so soon. His boss is out for the count, his friends are being misled and he has some extremely dubious allies, one of whom may cost him more than would his enemies. Temptation, legend, myth and fate all come together in The Digital Wolf, the explosive second novel of The Hidden Academy series.
