Eine spannende Geschichte mit rasanten Actionszenen und gefhlvoller LiebsgeschichteVon LoveLetter MagazinPolizei-Sergeant Theo Petrakos wird eines Nachts auf dem Heimweg von einem Mordfall von Commander Jorie Mikkalah, einer gutaussehenden und schwerbewaffneten Anfhlerin eines Trupps ausserirdischer Zombiejger entfhrt. Theo braucht eine Weile um zu verkraften, wie ernst die Situation fr seinen Heimatplaneten ist, der kurz davor steht, von

einer Herde Zombies berollt zu werden. Auch Jorie findet sich in einer neuen Situation wieder: die Zombies verhalten sich nicht wie gewohnt. Bald vermutet sie, dass diese von einem noch ernsthafteren Feind kontrolliert werden. Nicht nur die Erde, sondern der Frieden des ganzen Universums könnte auf dem Spiel stehen. Und der einzige, dem sie vertrauen kann, ist Theo, der für sie mehr bedeutet, als er dürfte. Linnea Sinclair hat dem Genre Futuristic Romance bereits mit ihren früheren Werken zu neuen Grössen verholfen. In "The Down Home Zombie Blues" beweist sie, dass sie es vor allem versteht eine spannende Geschichte zu erzählen, wozu sie eine ansprechende Mischung aus tiefgehenden Charakteren, rasanten Actionszenen und gefühlvoller, sich langsam entwickelnder Liebesgeschichte benutzt. Einen gewissen Grad an Akzeptanz von SciFi-Jargon sollten die Leser allerdings schon mitbringen. Die Autorin schwelgt gerne darin, ihre selbst erdachte Zukunftstechnologie und -wissenschaft vorzustellen. Die Story ist es jedoch mehr als wert, diese kleineren Ausrutscher in Kauf zu nehmen, und die glaubhaft entwickelte Liebesgeschichte zwischen dem Polizisten und der Weltraum-Kämpferin dürfte auch anspruchsvollste Leser zufriedenstellen. Space aliens team up with Florida cop to defeat zombies Von Helen Hancox Theo Petrakos is a homicide detective in Bahia Vista and about to go on holiday for Christmas. However he finds himself involved in a case of a mysterious mummified man with an odd laptop and the laptop brings a strange group of people into his life. Jorie Mikkalah is a Guardian Force commander, a group of people who travel the galaxy to defeat the Zombies, drone-like beings who kill indiscriminately. When she realises Theo Petrakos has seen the alien laptop he is taken to their spacecraft to prepare for resettlement - people from low-technology worlds aren't allowed to know about the other races in space. However Theo convinces Jorie that he is needed to provide cover for them when working against the Zombies; although they speak a language which is similar to English there are also many differences. Theo has also proved himself able to fight a Zombie. Jorie and her crew return to the planet with Theo and start working on a machine to call the Zombies so that they can be destroyed. However when the rest of the team disappear Jorie and Theo have to work together with minimal technology in order to try to defeat the group of Zombies, one that they realise has been modified to be more dangerous. Jorie faces frightening aspects of her past as well as the difficulty of being alone on a strange world and attracted to Theo. Theo knows that he must gather more people to help them but is afraid that Jorie will be taken away by the FBI and never seen again. How can they succeed against so many Zombies with so little time and so few weapons and soldiers? Although this story is billed as a romance the romantic element is subordinate to the overall plot of the fight against the zombies. In some ways, in fact, the romance felt like a very minor aspect. There's little disagreement and misunderstanding between Jorie and Theo, the main course of the romance between them is the difficulties of a cross-cultural relationship of a rather dramatic kind. The book is rather more focused on the fight against the Zombies and the different technology and skills that Jorie brings to Earth. Much is made of the different speech patterns between Jorie's Vekran and Theo's English, clearly a very similar language, and of the interest of Theo's family in his love life. Although an interesting read this book did drag at times and there were rather too many unrealistic elements to the plotting timeline. It's very much a book for those who like space stories and aliens rather than those looking for a straight romance. All the characters were well drawn and interesting although we didn't find out very much about many of the 'baddies' but the story could have benefited from tighter writing in places. Kurzbeschreibung It's Men In Black meets CSI: Miami! He's a Florida cop. She's an intergalactic zombie hunter. Saving Earth is the least of their problems... Bahia Vista homicide detective Theo Petrakos thought he'd seen it all. Then a mummified corpse and a room full of futuristic hardware sends Guardian Force commander Jorie Mikkalah into his life. Before the night's through, he's become her unofficial partner--and official prisoner--in a race to save the Earth. And that's only the start of his troubles. Jorie's mission is to stop a deadly infestation of bio-mechanical organisms from using Earth as a breeding ground. If she succeeds, she could save a world and win a captaincy. But she needs Theo's help, even if their unlikely partnership threatens to set off an intergalactic incident, and forces her to choose between a planet and a promotion--and a man who's become far more important than she cares to admit...4-1/2 Stars Top Pick! From Romantic Times BOOKreviews: Quirky, offbeat and packed with gritty action, this blistering novel explodes out of the gate and never looks back. Counting on Sinclair to provide top-notch science fiction elaborately spiced with romance and adventure is a given, but she really aced this one! A must-read, by an author who never disappoints.
