Lighthearted and Exciting Read Von Eva This book is set in the world of Honor Raconteurs Advent Mage novels. Jaunten is the first of four books in that series. You can easily read The Dragons Mage as a standalone, but I still recommend reading the other books first. They contain a lot of background information, and there are a lot of inside jokes you'll only understand if you've read the Advent Mage novels. There's a good summary given above, so I'll just give you my thoughts on the story: I really enjoyed this book. It's lighthearted and funny and exciting without much violence. While it's a suspenseful story with a lot of action, I didn't ever doubt that there'd be a happy end. Definitely more Harry Potter than George R. R. Martin. That might not be to everyone's taste, but if you're not in the mood for constant blood and gore, then this book is pretty great. What makes it slightly different from a lot of the current fantasy books is the lack of an evil overlord. There's no Voldemort or Sauron who commands legions of evil-hearted minions. The fate of the world doesn't rest in the hero's hands. He simply has to save his city from an arsonist. Or maybe not so simply it takes quite some effort after all. I don't really know a lot about children's reading levels, but I'd say that anyone ten or up can easily read and enjoy the story.

Kurzbeschreibung Once upon a time, there was a dragon. Take one newly trained Fire Mage. Make him the first (sane) Fire Mage that's been born in the past two hundred years. Have him leave home and venture into the Empire of Sol. Add one powerful, curious, fire-eating dragon. Fire Mage Haikrysen never imagined that he would be adopted out of the blue by a dragon. But then, he never thought he'd find a permanent home in the northern section of Sol, working as a firefighter either. Still, he likes his new home and adores his dragon companion even if she does hoard jewelry and eat whole sheep for breakfast. But his peaceful days end abruptly when an arsonist starts torching the eastern section of the empire, his attacks becoming progressively bigger and faster. It's beginning to look like he's another insane Fire Mage on the loose. Krys, Kaya, and his partner Mari are sent to investigate, but they have no idea what the aim of the arsonist is, and very little knowledge of the man. Desperate, the three of them race against time to catch the madman before he burns a path across the whole empire, and everyone in it. Dragons Mage by Honor Raconteur, set in the Advent Mage world, features the returning character of Haikrysen, the first real Fire Mage of his generation.
