Amazing Read Von Platon These books is truly amazing. I myself play/played some MMORPGs and the book really

captures the conflicts and decisions coming up in those. Moreover I'm wondering where the storyline is heading. There is no clear outcome predictable yet. All in all this book is a great read. Thanks for the great read and I hope you can keep it coming!!! btw. Thinking about the specific kind of VR that is brought up in this book I am not sure if I should shout out in ecstatic glee or run away in fear from such a game. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Can't wait for the next book! Von TP This book is a lot more action/battle oriented than the first one and - subjectively - had less of the "exploration", "settlement", "long term planning", "oh, he has acquired a really cool new item, ability or other asset" aspects that were found in the first book (or other books of this genre). Well, maybe it did, but the action was quite dominant, so it didn't register as much - at least not for me. I actually would have preferred more of that, as well as more looks into the character stats etc, but the book was still highly addictive and I finished it basically in one day as I couldn't put it down anymore. Only thing that is annoying me a little is the "game mechanics" of dying: I really don't see a reason why actual player characters, who don't feel significant pain (at least for most normal players) and resurrect with a negligible 5% monetary loss, would ever be seriously afraid of fighting and dying. Additionally, the permanent loss of rather costly and strong NPCs upon death makes them mostly useless as fighters against players who respawn every 15 minutes (+ a bit of travel time). Anyhow: Big praise to Brent Roth! I am so much looking forward to the next book (and the one after) that it even triggered me to write a book review, which I usually don't bother with. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Nordmänner sterben nicht so leicht... Von R. und D. Dring... das ist wohl die Lektion, die Sigurd seinen Feinden bereithält. Rau, originell, direkt und ungeschliffen. Wie der Norden selbst. Lesenswert !

Kurzbeschreibung*Volume 3 is now out!*Direct Sequel to The Dragon's Wrath: A Virtual Dream Volume 2, Ashes of the Fallen takes off exactly where A Virtual Dream left off, with Sigurd thrust right back into the action as he finds himself in conflict with Goblins, Beasts, and other Players. As the state of the game progresses and other players become more aggressive, Sigurd is forced to respond. Dragon's Breach, Allies, Enemies, and even Pets are changing and growing every in-game day! This is Volume Two of a multi-part series and is not a standalone novel.
