Kurzbeschreibung In 1944 Denver, twenty-six year-old Franklin Powell is doing what he does best, helping clients with his psychic gift. Then his brother causes the past to come crashing into the present and a memory Frank has kept buried since the age of six surfaces. Now his life is in an uproar. He must prove that what he remembers is true or his mother may spend the rest of her life in prison. But even if he succeeds, it appears there is a powerful someone behind the scenes who could care less if she is innocent. Why? Because of a seething hatred for Frank. To make matters worse, the woman he loves needs his help with a serious problem of her own a problem that could get him killed. Frank can't let that stop him. He dives right in and while his psychic gift doesn't seem to be doing him any favors, it's a good thing that a couple of newly-acquired ghosts appear to be on his side.
