prequel to Sanguis City. A fantastic story about Lily and Crow encapsulating love, fantasy and the paranormal. Certainly a good taste of only what one would assume to be a great novel. Lilanoir possesses gifts, which sets her 'away from the norm' and aching for love. A unique writing style draws you into vampires in this strange world. A super story with interesting characters and will leave you wanting the next phase!

KurzbeschreibungA prequel to Sanguis City(July 2013), the first novella in the Sanguis City series.--- Lilanoir Rue, a side effect of The End of the world, has never had a say in her future until now. A rift between two factions of the Human Reservation is growing and she is offered a life with the man she loves. But nothing is ever normal for Lily, even something as simple as love. Used to being called a monster, Lily meets a real one at the worst possible moment but finds out that he isn't the only one she needs to fear.KurzbeschreibungA prequel to Sanguis City(July 2013), the first novella in the Sanguis City series.--- Lilanoir Rue, a side effect of The End of the world, has never had a say in her future until now.
