Fesselnde StoryVon Howie1006Ein Industriediebstahl in einem gyptischen Unternehmen. Doch etwas ist anders, und der Tter darf nicht auf die Hrte des Gesetzes hoffen.Jax, ein Sldner, an diesem Diebstahl beteiligt, kommt in die Bredouille seines Lebens. Und das, obwohl er durch und durch Profi ist und bleibt.Dominic Grey, ein Privatdetektiv, erhlt ber seinen Chef Viktor Radek den Auftrag, diesen Diebstahl zu untersuchen. Bald merken beide, dass etwas nicht

mit rechten Dingen zugeht. Nach *The Diabolist* mein zweiter Layton Green; ja, ich lese in umgekehrter Reihenfolge. Die Story ist spannend aufgebaut, die Charaktere berzeugen. Grey und Jax berzeugen als Team von Gut und - nein, nicht Bse, aber auch nicht ganz gut. Kann ich empfehlen. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Not bad Von Jacky from Germany While a little far-fetched, this book had all the good points of a Dan Brown story. It was original and touched on a profound subject that hasn't been done to death. A lot of research obviously went into it and there were enough strands to make the story interesting and engaging. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Gelati's Scoop Von Giovanni Gelati I am noticing a trend here, each of Layton Green's titles have two words in them. First there was 'The Summoner' and now 'The Egyptian'. Personally I don't really care; I just enjoy the main character in both, the Dominic Grey, wait that was three words. Okay enough joking around. Layton Green's novels are infused with common things, science, extremes, and action. A nice formula. There seems to be no middle ground.. What his formula does equate to is a read that flows all downhill and very quickly at that. I for one am a fan

Kurzbeschreibung At a mausoleum in Cairo's most notorious cemetery, a mercenary receives a package containing a silver test tube suspended in hydraulic stasis. An investigative reporter tracking rogue biomedical companies is terrified by the appearance of a mummified man outside her Manhattan apartment. A Bulgarian scientist who dabbles in the occult makes a startling discovery in his underground laboratory. These seemingly separate events collide when Dominic Grey and Viktor Radek, private investigators of cults, are hired by the CEO of an Egyptian biomedical firm to locate stolen research integral to the company's new life extension product. However, after witnessing the slaughter of a team of scientists by the remnants of a dangerous cult thought long abandoned, Grey and Viktor turn from pursuers to pursued. From the gleaming corridors of visionary laboratories to the cobblestone alleys of Eastern Europe to a lost oasis in the Sahara, Grey and Viktor must sift through science and myth to uncover the truth behind the Egyptian and his sinister biotech - before that truth kills them. "Stirring and imaginative, with an engaging premise that is briskly paced. Both the characters in the story and the reader are in for a wild ride." --Steve Berry, New York Times bestselling author of *The King's Deception* A fantastic thriller that leaves the reader breathless and on the edge of their seat. Green's writing reminds me of Michael Crichton's works with the mysteries, thrills, and the life-changing scientific discoveries." -- Cherie Reich, *Surrounded by Books* "Wow. Layton Green has become the new master of gripping, chilling, and suspenseful stories." -- Two Readers "I do believe Layton Green has moved into my top 5 author category - not an easy feat!" -- A Novel Source "If James Bond and the X-Files had a love child, this book would be it." -- Keryl Raist, *To Publish or Not To Publish* "Layton Green is an absolutely brilliant writer." -- Everything To Do With Books "This is what you get when you combine Indiana Jones with Ludlum's Jason Bourne . . . A must read for all you lovers of conspiracy theories, thrillers and mysteries alike!" -- Baffled Books "Layton Green twists and turns you in your seat, unraveling a tale so multi-dimensional even the most leery will be attracted." -- Luxury Reading
