Fine pacing and continuity made it impossible to lay down. Although I would have liked to read more about the stamps and their history as well about the background of our heroine and how she came to it. Overall a delightful novel.0 von 1 Kunden fanden die folgende Rezension hilfreich. Wunderbar Von Frau Mller Kurz und mitreißend. Wie der Autor selbst anmerkt, in Anlehnung an die asiatische Kultur geschrieben und mit genau der richtigen Portion Fantasie ausgeschmückt.

Kurzbeschreibung WINNER, 2013 Hugo Award for Best Novella! Nominee, 2013 World Fantasy Award for Novella! From #1 New York Times bestselling author Brandon Sanderson, *The Emperor's Soul* showcases a fascinating magic system as the clock ticks down for a condemned criminal. When Shai is caught replacing the Moon Scepter with her nearly flawless forgery, she must bargain for her life. An assassin has left the Emperor Ashrahan without consciousness, a circumstance concealed only by the death of his wife. If the emperor does not emerge after his hundred-day mourning period, the rule of the Heritage Faction will be forfeit and the empire will fall into chaos. Shai is given an impossible task: to create to Forge a new soul for the emperor in less than one hundred days. But her soul-forgery is considered an abomination by her captors. She is confined to a tiny, dirty chamber, guarded by a man who hates her, spied upon by politicians, and trapped behind a door sealed in her own blood. Shai's only possible ally is the emperor's most loyal councillor, Gaotona, who struggles to understand her true talent. Time is running out for Shai. Forging, while deducing the motivations of her captors, she needs a perfect plan to escape-----A note from the publisher: Brandon will send a free copy of this ebook to anyone who purchased the Tachyon Publications trade paperback. See the title page in the ebook preview for details. Pressestimmen The forgery was a masterpiece, an almost perfect replica of a priceless work of art. The minor inconsistencies were all but impossible for even an expert to detect. However, Shai had been betrayed. Now awaiting execution, Shai would be reprieved if she could do the impossible. As a Forger, Shai is a skillful artist who can apply complex magical glyphs to rewrite the history of the item to change it completely. Although Forgers are despised, the Empire needs Shai to accomplish the unthinkable: to Forge a new soul for the Emperor. Verdict: Sanderson, the best-selling author of the Mistborn Trilogy and *The Way of Kings*, has set this novella in the same world as *Elantris*, one of his earlier novels, but it is totally independent. Fantasy fans will love both the compelling story and the creative magical setting. Library Journal Sanderson proves to be an exceptionally talented writer in the pages of this book.... *The Emperor's Soul* is one of those rare high fantasies that feels fresh and is filled with a sense of wonder. Charles de Lint, *Fantasy Science Fiction* *The Emperor's Soul* is a worthy addition to Sanderson's bibliography: a new magic system with some interesting implications, a couple of fascinating characters, a focused plot, and a subtle link to the much larger picture he's been painting for years. Tor.com With a fascinating study of clashing beliefs, another inventive magic system, and highly entertaining action sequence, *The Emperor's Soul* is the book I would recommend to anyone who wants to find out for the first time what Sanderson is all about. *Fantasy Book* This story had such a wonderful balance with the world, characters, and magic building, that I truly hope the author will explore it more.... Open Book Society, five-star review *The Emperor's Soul* is fast-paced, clever, and fun.... *Fantasy Book Critic* This is a fantastic novella set in the *Elantris* world. Despite its short length this story was complex, intriguing, and just absolutely magical and engaging. *Hidden in Pages* An excellent fast read, highly recommended for readers looking for unique story worlds and magic systems. It won the 2013 Hugo Award for a Novella, and that really says it all. *Flight of the Dragon* It truly is a work of art. Pendemon
