US-Satellit srzt ab und sendet in seinen letzten Augenblicken ein mysterises Bild zur Erde: eine total verheerte Ostkste der USA...Im Vatikan trifft ein Paket mit seltsamen Artefakten ein, die alle auf den berhmtesten Mongolen der Geschichte hindeuten: Dschingis Khan.Wie pat das alles zusammen?Nach dem Ende der "Gilde" sucht das SIGMA-Team neue Aufgaben. Eine davon ist die Rettung der Erde, doch vorher mssen sich Grayson Pierce und seine Teammitglieder mit einigen asiatischen Schurken herumschlagen, Gefangene aus Nordkorea befreien, einer Truppe mongolischer Guerillas Paroli bieten-der bliche Alltag eben. Auch dieser Roman kombiniert Cliffhanger-Situationen mit experimenteller Wissenschaft in einer Art, wie nur James Rollins das vermag. Die knisternde Spannung und die Nhe zu den handelnden Personen entschuldigen dann auch die fehlende Logik in einigen Schlusequenzen des Romans. Dennoch tte der Autor gut, seinen nchsten SIGMA-Roman weniger apokalyptisch auszurichten-von der Sorte gibt es schon mehr als genug, und der 21.12.2012 liegt bereits hinter uns...Erstmal jedoch verdiente fnf Punkte und eine strikte Kaufempfehlung!0 von 0 Kunden fanden die folgende Rezension hilfreich. A great bookVon starbooksIHI enjoyed this book very much. The story is amazing. A lot of action, of course, however I loved the science. Most of the theories applied are indeed at the pulse of todays scientific works, which makes this a book I find exceptional. I came to the Sigma series by The sixth extinction which is a very good one, and I keep plowing through the other books, but this one here I m sure will remain one of my favourites. Ok, if you re not that much into science and are only in for the action you might not find it as exiting as myself does and are better of with others in the series, but I am into it and I enjoyed the story very much. And it you wanted to know what happens with Grey and Seichan you simply have to read it.0 von 0 Kunden fanden die folgende Rezension hilfreich. Conspiracy galoreVon M SocketlTake The X-Files and mash in a little Twilight Zone. Baste in a touch of Tom Clancy, and marinate in A Gathering of Twine (The Spirals of Danu) (and I'm really torn as to which one is the better "end of days" book because they are both superb), and you get The Eye of God.This has everything - science, religion, haunting sub plots, adrenaline... everything.This is a thinking man's action book with thrills, spills, and enough shocks and crises to keep you hooked until the last page.I couldn't put it down.

KurzbeschreibungInThe Eye of God,a Sigma Force novel,New York Timesbestselling author James Rollins delivers an apocalyptic vision of a future predicted by the distant past.In the wilds of Mongolia, a research satellite has crashed, triggering an explosive search for its valuable cargo: a code-black physics project connected to the study of dark energy--and a shocking image of the eastern seaboard of the United States in utter ruin.At the Vatican, a package arrives containing two strange artifacts: a skull scrawled with ancient Aramaic and a tome bound in human skin. DNA evidence reveals that both came from the same body: the long dead Mongol king Genghis Khan.Commander Gray Pierce and Sigma Force set out to discover a truth tied to the fall of the Roman Empire, to a mystery going back to the birth of Christianity, and to a weapon hidden for centuries that holds the fate of humanity.PressestimmenRollins is one of the most inventive storytellers writing today. (Lincoln Child)James Rollins is a master of international action and intrigue. (Richmond Times-Dispatch)James Rollins knows adventure. (Chicago Sun-Times)James Rollins is clearly at the top of his game. (Steve Berry, bestselling author of The Romanov Prophecy on Map of Bones)Terrible secrets, the sweep of history, an epic canvas, breathless action...nobodyand I mean nobodydoes this stuff better than Rollins. (Lee Child on The Devil Colony)The science... reads like the best of Michael Crichton. The machinations of government read like the best of David Baldacci. And the action and thrills read like the best of Clive Cussler. Rollins takes the best of all of these and creates an amazing thriller unlike any other. (Associated Press on Bloodline on THE EYE OF GOD)Nobodyand I mean nobodydoes this stuff better than Rollins. (Lee Child on The Devil Colony)Rollins effortlessly blends science and superstition in the grand tradition of Clive Cussler and David Morrell. (Providence Journal)This guy doesnt write novelshe builds roller coasters. . . . Rollins excels at combining action and history with larger-than-life characters. . . . A must for pure action fans. (Booklist)Rollins does his job: thrills promised, then delivered. (Tampa Tribune)Rollins combines real-world science with high-octane action to create rousing stories of adventure that are as exciting as any movie. (Chicago Sun-Times) . . . this is your summer beach read writ large. (New York Journal of Books on THE EYE OF GOD)Rollins has done it again. Real history and science play a key role in all of the action, which never wanes. Amid all of the chaos are some terrific characters who get a chance to shine. Definitely keep an eye out for this one. (Library Journal (starred review) on THE EYE OF GOD)WerbetextA gripping, high-concept Sigma Force adventure from bestselling author James Rollins.
