KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. AN ENTERTAINING TALEVon Sahara FoleyThis is the second book in the Rae Hatting mysteries. Its broken into several parts. Part one takes place in 2005 with Lucas Thompson who is investigating a possible serial killer. All the bodies are left staged as a character from a fairy tale. We follow his frustrations as the clues that he needs to capture the killer, or killers eludes him. Melinda Rawlings is an FBI profiler, who uncovers some new evidence. But as she gets closer to discovering who the killer is, she incurs his/her wrath.After a seven year lull, another body is found posed like a fairy tale character. Devastated by his grief, Lucas has pulled away from lie, hiding away in his cabin. Wanting to catch the serial killer once and for all, Captain Frank Harris begs Rae Hatting to come investigate the murders and hopefully find them some new leads. But the biggest obstacle Rae faces is getting Lucas back on the case.I really liked the characters of Lucas and Melinda. Their romance may have happened a little fast, but they were meant for each other. I dont want to put out any spoilers, but Osborne did a great job with Lucas and his grief. Then Rae Hatting comes on the scene. I enjoyed the interplay between Rae and Lucas, and you could see a spark between the two.Even though the story is told from a first person POV, there was no confusion on who was telling the story. Osborne did a good job at keeping their personalities separate. The story was fast-paced, well-written, and kept me turning the pages. As for a plot twist, I cant say I was surprised at the ending.My only point of contention, Frank and Lucas knew who the killer was at the end of Part One. I just couldnt understand why they didnt pursue their leads at that time.If you love a good psychological thriller, with a little romance, I recommend this book. Im looking forward to reading more about Lucas and Rae and I give the book 4 feathers
