Von Nury Vittachi : The Feng Shui Detective (THE FENG SHUI DETECTIVE SERIES) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Feng Shui Detective (THE FENG SHUI DETECTIVE SERIES):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Vom Feinsten!Von Leopold LinhartIch habe das Buch auf Deutsch gelesen, also in einer bersetzung. Ich war davon so begeistert, dass ich's nochmal im Original lesen wollte.Wenn Ihr Englisch das erlaubt: Bestellen Sie nicht die bersetzte

Variante, das Original ist noch viel kstlicher!

Kurzbeschreibung CF Wong is not quite a private eye, nor exactly a Zen sage. He is a feng shui master, a geomancer who consults to people who want to optimise the energy flow of their buildings. But his work has a habit of presenting him with problems of a less mystical, even criminal, nature. This summer he has been saddled with a favour for his boss: to supervise a young Australian woman on work experience. Riotous cultural confusion results as the unlikely pair travel across Asia solving mysteries in a style reminiscent of Sherlock Holmes. A delightful combination of crafty plotting, quirky humour and Asian philosophy, the Feng Shui Detective is an investigator like no other. Pressestimmen International Praise for The Feng Shui Detective: "Clever and comic." - Sydney Morning Herald "Mr. Wong prowls around like an Asian Sherlock Holmes." - Weekend Australian "I hope Vittachi has more of this delightful pair of detectives in the pipeline." - Newcastle Herald "Intelligent and funny." - Japan Times "Vittachi's characters are packed full of delightful quirks, and the novel zips along at a fun, fast and furious pace." - HK Magazine "Move over, Sherlock." - The Hong Kong Correspondent "A whacky and hilarious whodunit - you just have to dig in and hold on for the wild ride... Beyond characters and the zany plotting, one of the pleasures of this novel is Vittachi's use of language." - The Asian of Books "His ear for dialogue is almost perfect ... I really enjoyed this book." - South China Morning Post
