KurzbeschreibungThe classic medical novel from #1 New York Times bestselling author Arthur Hailey takes readers behind the scenes of a great hospital. Change is in the air when a new board chairman sets out to modernize and expand Three Counties Hospital in Burlington, Pennsylvania, a once venerable institution whose standards have slipped. Dynamic Dr. Kent O'Donnell, a Harvard Medical School-trained surgeon, accepts the board's offer to lead and reform the rundown, disorganized hospital because he wants to make his mark on the world. As medical-board president, O'Donnell faces his greatest challenge in Dr. Joe Pearson, Three Counties' elderly head pathologist. Once an excellent diagnostician, Pearson is now out of touch with the latest research and procedures in laboratory medicine. But if the hospital lets the imperious doctor go, it risks losing an important benefactor's financial support. Arthur Hailey's fascinating, dramatic, and scrupulously researched story reveals both the professional, personal, and romantic aspects of an administrator-surgeon's life, as well as the tragedies and moments of joy that occur every day in a hospital, a place where life often begins and ends.
