Von Edward Crichton : The Last Roman (The Praetorian Series Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Last Roman (The Praetorian Series Book 1) (English Edition):

Nice action mixVon Kindle Customerif you like cocktails you will love this one. it mixes military action with time travel and a little bit of roman history.The characters are a delightful experience to read. They combine humor and empathy

without losing the unique factor to each one of them. They are deep and explore intercharacter relationship with some depth. Action is assured for those that search it! Well described and giving a realistic feeling to the different weapons of the time and tactics. All in a well contextualized situation in the history without being too much military or narrative.... in fact is a pretty good blend. Recommended and looking for the next one. 0 von 0 Kunden fanden die folgende Rezension hilfreich. auch Buch II und Buch III gekauft und gelesen, warte auf Buch IV. Von offline again Warum habe ich gerade dieses Buch gelesen? In der englischen Rubrik Fantasy/Science-Fiction sortiert nach aufsteigendem Preis (seit ich einen Kindle hab, lese ich zu viel = ich gebe zu viel Geld für Bücher aus) war das, das kostenlose Buch mit der interessantesten Zusammenfassung. Mal was ganz anderes als Elfen und Drachen und außerdem mag ich die Fernsehserien Spartacus und Rom sehr. Inzwischen habe ich für Buch II und III bezahlt und Buch IV erscheint sehnlichst erwartet in ca. 3 Monaten. Ich würde auch 5 Sterne geben, wenn ich für dieses 1. Buch etwas zahlen hätte müssen. Zum Inhalt von Buch I: Eine internationale zusammengeworfene Eliteeinheit reist unfreiwillig in der Zeit zurück, genauer gesagt ins Rom des 1. Jahrhunderts nach Christus. Die Truppe um Jakob Hunter wird in den politischen Machtkämpfen und Intrigen hineingezogen und beeinflusst das historische Geschehen natürlich entscheidend. Was ich besonders an dieser Buchreihe mag: - das historische Setting und die historische Persönlichkeiten - den Schreibstil aus (oft emotionaler) Sicht des Helden - die lebendigen Charaktere - die häufigen "was-wäre-wenn" Überlegungen, bzw. das Aufzeigen der Kausalketten von historischen Ereignissen (z.B: welche Auswirkungen hat es auf die heutige politische Weltkarte, dass das römische Reich nicht einige Jahrhunderte eher von der Bildfläche verschwunden ist) Was hat mir nicht so doll gefallen? Den Versuch der Begründung bzw. die Konstruktion, warum die "Zeitreisenden" genug moderne Ausrüstung für mehrere Jahre dabei haben... 0 von 2 Kunden fanden die folgende Rezension hilfreich. Very different but good. Von Ertltaffi thought I would try this out for a change to my normal read and I liked it. Of course extremely far fetched but hey, it was nicely written and kept me turning pages. It speeds along and you always feel that you really want to know where this is going to go next. It makes your mind fight with what would happen to historic events if man really could go back in time. I enjoyed it enough to purchase part 2 "To Crown a Caesar" so hope the ride continues.

Kurzbeschreibung OFFICIAL EDITED VERSION - 9/16/2013 As war consumes the nations of our world in the year 2021, Navy SEAL Jacob Hunter is sent on a mission to Syria to apprehend a crazed terrorist leader armed with dangerous biological weapons. It's a routine mission for a man who has spent the entirety of his military career fighting in what many have dubbed World War III, but his life is about to become everything but predictable. As their mission unravels around them, Hunter discovers a curious trinket that belies all rationality and our understanding of the universe, but he is drawn to it nonetheless, bewildered by its uniqueness. Unable to control his urges, Hunter touches it, and in a flash of brilliant light and intense pain, the team is no longer in contemporary Syria but in Ancient Rome during the reign of the emperor Caligula. They stand dumbfounded, unable to comprehend the paradox they've created, but the bleak truth of reality soon overtakes their disbelief. The fact that they should not be there becomes obvious almost immediately, as does the thought that with every breath they take, everything history has worked so hard to achieve is at risk of unraveling. Staying alive suddenly becomes a secondary objective, superseded by the theory that their mere presence in Ancient Rome has caused irreparable damage to the timeline. This won't be an easy task for Hunter and his friends as they will quickly encounter numerous Roman figures straight from his old history books, each with their own agendas, schemes and machinations, including the Caesar himself, who history remembers as little more than an insane tyrant who once tried to appoint his horse as the head of state.
