**Von Nicholas Evans : The Loop (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Loop (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. WILL HAVE YOU ROOTING FOR THE WOLVES ALL THE WAYVon Michael M.I was one of those readers who thoroughly enjoyed The Horse Whisperer so I anxiously awaited Evan's next book. I was not disappointed. It's nice for

a change to be reading about nature and its elements and different parts of the animal kingdom.....in this book the dreaded wolf. I found out that the wolf is now an endangered species and it is against the law to kill. The setting for this book takes place in a town called "Hope"; unfortunately there's no hope for the wolves until Helen Ross arrives to try to fix the wolf situation as it pertains to the cattle being killed. It's more than midway through the book before you learn what a loop is. This is when you will cheer for the wolves to get away. Some readers might even enjoy this one more than Horse Whisperer. In my estimation, they are both great reads.0 von 0 Kunden fanden die folgende Rezension hilfreich. Selten gutes und spannendes BuchVon pixelvielfaltIch habe mir das Buch von einer guten Freundin geliehen (und empfehlen lassen). Eigentlich bin ich alles andere als eine Schmekerratte ... aber dieses Buch hat es mir angetan! Binnen kurzer Zeit hat mich die kombinierte Spannung aus kologischer Faszination an der Kreatur Wolf und den zwischenmenschlichen Beziehungen gepackt, so dass ich mich aufregte, als mir beim Lesen nachts die Kerzen erloschen .... ich lag in einem Schlafsack bei Minusgraden unter freiem Himmel und sehnte mich schon dem Sonnenaufgang entgegen um weiterlesen zu knnen..... sich denke, selbst mit "Schulenglisch" ist dieses Buch einfach und flssig zu lesen .... absolut empfehlenswert!1 von 2 Kunden fanden die folgende Rezension hilfreich. Not as good as Horse Whisperer, but nice to readVon Tonnia P.I loved the Horse Whisperer and they way that when you read it, you got "that feeling" .. like you wanted to know the people, wanted to visit the places. The Loop is interesting, it tells a lot about wolves, but I wish we could have known the characters better. I wish it was 100 pages longer and that it told more about Helen and Luke. Nevertheless, it is NOT a waste of time it is still a beautiful book and yes, it still makes me want to visit Montana. I guess being a soft hearted girl, I wanted to know the wolves better, the characters better, the love story better and the killing of the wolves less (some is pretty brutal). I would recommend this book to anyone who likes wolves, wilderness stories,this author, or Montana. It's worth reading!

KurzbeschreibungHelen Ross, a twenty-nine-year-old biologist, is sent to a sleepy Rocky Mountain ranching town to defend a pack of wolves from those who want to destroy them. For in Hope, Montana, a century ago, the wolf was slaughtered to extinction and though now protected by law as an endangered species, the old hatred runs deep. Alone in this hostile place, bruised by a broken love affair, Helen struggles for self-esteem and survival, embarking on a dangerous alliance with the son of her most ferocious opponent, the brutal and charismatic Buck Calder. Form its heart-stopping first chapter to its devastating climax, The Loop, set in the same vast landscape as The Horse Whisperer, is an epic tale of passion and redemptive love..deThings aren't going too well for wolf biologist Helen Ross. At 29, she's unemployed (recently retired dishwasher), single (boyfriend of two years left her for Africa), and has just learned that her father is marrying someone younger, richer, and prettier than herself (completely accurate). Back in her lonely log cabin in Cape Cod, frantically chain-smoking, she receives a message from her former lover Dan Prior. Prior, also a biologist, works for the U.S. Fish Wildlife Service wolf-recovery program. In return for helping him track the lupine posse, Prior will provide her with a cabin, truck, and a snowmobile for good measure in a rustic little town called Hope, just outside of Helena, Montana. Apparently, Ross has never heard the proverb "If it sounds too good to be true, it probably is," and happily skips off to Big Sky Country. Within moments of her arrival, she finds out what she's up against: a small town with a long history of wolf fear and loathing, no resources (big surprise), and a powerful rancher who will do whatever it takes to eliminate the wolves. The rancher, testosterone-saturated Buck Calder, has got the community riled up after a wolf stalked his daughter's home and killed the family dog. He won't stop until every last endangered wolf is dead, which proves problematic for Ross when she decides to romance his 18-year-old son, Luke. Cynics be warned: their love affair spawns a trove of gooey pillow talk and syrupy prose. Even so, Evans has made impressive strides as a writer since his debut novel, The Horse Whisperer, and his storytelling has reached a noticeably new level of sophistication: the plot is tight, the characterization is realistic, and the dialogue is crisp. --Rebekah WarrenPressestimmen"Gripping, big drama in Big Sky country...The Loop ropes a reader in."--People"Colorful, captivating . . . a novel of big themes: freedom, self-reliance, conservation, sheer survival."--The New York Times Book "Readers who loved The Horse Whisperer will most certainly love The Loop."--The Orlando SentinelFrom the Paperback edition.
