Andy und Leo / Lost and FoundVon -KundeWir haben das Buch auf dem Weg zum "Lost and Found Hostel" in Panama gelesen. Etwas geschockt liefen wir den steilen Weg zum Hostel über den Wolken hinauf. Die Atmosphäre war dank des Nebels und der hereinbrechenden Nacht schaurig und die Gedanken an das Horror-Buch geisterten uns durch den Kopf. Ein gruseliger Einblick in das eigentlich sehr entspannte Hostel und Naturleben im lebhaften Regenwald.- Andyleotravel0 von 0 Kunden fanden die folgende Rezension hilfreich. JungelfieberVon Michael PauliWenn man im hostel verweilt ist das Buch ein absoluter Tipp. Auch sonst kann es einem die Abende erheblich spannender bereiten!0 von 0 Kunden fanden die folgende Rezension hilfreich. Great and disturbing read - a little more character development would have been niceVon tkI got this ebook because I was staying in the "Lost and Found" Hostel in Panama that is owned by the author. I really enjoyed the unorthodox way it is written. A number of stories that are written from the perspective of the (fictional) get intertwined and fit together into a bigger picture. The book is easy to read, however the different writing styles of the chapters seem to be a bit too much. Even though the writing styles fit the characters, they fragment the whole story into several short stories. That way it feels like reading several books on the same narrative than one consistent story. Also, I couldn't really identify or develop some sort of empathy for the characters. Some parts are too shallow and too vague. However, I enjoyed the side facts about Panamas history and culture as well as some mocking of the prevalent backpacking culture. All in all, an interesting and quite different read with some flaws and a great disturbing storyline! In the end, it's all about "The End"

KurzbeschreibungIt slowly oozed out covered in blood. It dropped to the ground. It was a bulbous vial full of what must have only been blood.Her eyes looked like they would bulge out of the sockets. What is growing inside me? She said and then collapsed in a hysterical fit and began to scream.Warning: The lost and Found takes place in the darkest corners of humanity and contains images of extreme horror. This book is not for everyone not for most.The mystery of what happened when a group of travel bloggers in Panama met and acted on their lucid dreams has become a new form of demented horror. Sex, crime and horror are twisted together to create a kind of psychological game that will leave the reader grasping to know what's true.Although this book has a solid climax, its conclusion is a portal to a new form of entertainment. The horror continues.
