Von Raymond L. Weil : The Lost Fleet: Galactic Search: A Slaver Wars Novel (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Lost Fleet: Galactic Search: A Slaver Wars Novel (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 2 Kunden fanden die folgende Rezension hilfreich. Very good!Von starbooksIHThis is the beginning of a new storyline, continuing the slaver war books after the endgame. The lost fleet is in an other galaxy, facing a new terrible enemy, who is out to destroy every living being in both galaxies. The remaining two of the fab five mount a rescue mission, which takes four years in the making. Learn how both teams face their obstacles and how they fare in the dangerous new galaxy.This story is very interesting, we learn a lot about the AI s, and you would not have seen that coming, believe me.A very good plot, I liked all ideas Ray came up with and I am looking forward to the new books.I admit to being afraid that Ray ran out of ideas and was surprised pleasantly that he showed new drive and came up with very good ideas. Myself, I specially liked that we do have a lot of substantial fire power and Do not have to start from sero all over again and are not blasted out of the sky again. However the new enimies are very dangerous and very powerful and there is a lot to be achieved in the future. The special five - finally - have contures and character again. ( As I stated in a previous review, there was a time they had lost those). They are back again, so let the adventures begin!1 von 2 Kunden fanden die folgende Rezension hilfreich. High-school gradeVon Ismail ASCIThis is definitely worst written book I've ever read. So many repeatation, annoyingly used expressions. It's a really bad copy of Battlestar Galactica and Stargate.Those 2 AI characters couldn't have imagined worse than the author did. Building the biggest space ship ever for a critical one way mission and the first thing your AI says: "you know I can take the control of the ship". Must be joking.1 star for his marketing skills. Apparently he's sold a lot of copies.

KurzbeschreibungUSA Today Best Selling AuthorThe battle at the galactic center had been a great victory for the Federation and the Alliance. But it had tremendous costs. The Battleship Avenger and her fleets had vanished being drawn into a great white vortex at the moment of victory. For over four years, the mystery of what had happened to the Avenger had haunted the Federation. The last two survivors of the Special Five have built a powerful exploration cruiser to go off in search of the lost fleets. They are convinced that the fleets have survived and are trapped in another galaxy. What they find in their search will be a threat to the Federation far greater than the AIs and the Hocklyns had ever been. The fate of thousands of worlds will depend on the Distant Horizon finding those that were lost and stopping this new and dangerous menace.KurzbeschreibungUSA Today Best Selling AuthorThe battle at the galactic center had been a great victory for the Federation and the Alliance.
