KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Caridad Pieiro actually seems to breathe life into each of her characters!Von Detra FitchAdam Bruno was six-years-old when

Salvatore Bruno found him in the desert. Now, twenty years later, Adam recalls little of the event beyond the death and fire that had surrounded him. To this day, Adam feels it had been some sort of attack, yet he can think of nothing to support the feeling. But Adam is not ordinary and he wonders if his unique abilities could have been why it had happened. Adam can shapeshift and create energy. He has a natural affinity with lightning. Adam is the founder and CEO of SolTerra Systems. The company is dedicated to developing alternative energies. While doing so, perhaps Adam would come to understand and master his powers. Roberta "Bobbie" Carrera is home from Iraq. Though Bobbie has survived her injuries, she is still undergoing physical therapy. No longer in service, she wants nothing more than to put the past behind her and have a normal life. When she sees Adam being kidnapped, Bobbie does not hesitate to help him ward off his attackers. Together they begin fighting mysterious paranormal enemies. Unknown to Adam, two sets of hunters search for him. The Light Hunters honor all life and relieve suffering. They draw energy from nature. Adam's biological parents are Quinchus (leaders) of their clan and have never ceased searching for their son. They now believe Adam to be their lost child. The Shadow Hunters draw energy from other sentient creatures. Humans are vast, but finite, and do not give up much energy with their meager life force. Therefore, the dark ones prefer to drain the life energies of Light Hunters, especially those as powerful as Adam. Together, Adam and Bobbie are a force to be reckoned with. But the duo must figure out who they can safely trust and the last thing Adam expects is a betrayal by someone close to him. ***** FIVE STARS! Caridad Pieiro has crafted an exciting new series and, with this first story, I am hooked! All the major characters are well developed; their backgrounds and ambitions are clearly defined. Due to the author's descriptive writing style, I could almost feel the evil malice radiating from the Shadow Hunters. I cannot help but feel bad for Bobbie's war injuries and the depression she is going through knowing that her entire platoon died, yet she (and one other) survived. I sympathize with Adam's sense of being different from everyone else, his need for isolation, and his desire to understand and master his abilities. Then there are the distraught parents, searching desperately for their missing boy. Their hope that, at long last, they may have finally found him. The author brings it all to vivid life. This story has set a solid foundation upon which the following ones can easily build. Though the ending leaves strings dangling, the story halts in the perfect spot. It is not a cliff-hanger, as if an axe is coming down and the reader is left wondering if the hero survives. Instead, all of Adam's questions are answered and I, as the reader, have a sense of closure. I am eagerly looking forward to the next story. I want to see more battles between the Light and Shadow Hunters. Caridad Pieiro actually seems to breathe life into each of her characters! Stellar! ***** Reviewed by Detra Fitch of Huntress Reviews.

Kurzbeschreibung Adam Bruno is no ordinary millionaire. The heir to an ancient race possessing a dark, powerful magic, he can shapeshift and create energy. His gifts make him a living weapon and have forced him to live in seclusion. But now an inhuman force hunts down Adam—just when he finds someone who makes him feel more human than he ever imagined possible . . . Home from combat in Iraq, Bobbie Carrera wants only peace, yet soon joins Adam in a terrifying battle against paranormal enemies who hide in plain sight. She's drawn to his strength of mind and body; he's attracted to her courage and intoxicating energy. Their scorching passion can either transport them to the heights of ecstasy or—if Adam's powers rage out of control—destroy them. But when an invisible brotherhood tightens its nets and someone Adam trusts betrays him, only a heartrending decision can save them.
