Not one of her bestVon CustomerMelody Ann invented a charming and quite unique series about a lovely family who sticks together and integrates their loved ones like no other I read about.But this book is different in many ways: the heroine is not aware that she is part of this family until very late in the development, she was the victim of severe abuse and is

still fighting the consequences of this abuse. I did not like this book as well as the others of the series - but that was my experience. 0 von 1 Kunden fanden die folgende Rezension hilfreich.
