a light touch that can lead to side-splitting giggles. She is one of the best writers that leaves you feeling good all over when you read her works. Well, this is her first contemporary and it is a fun romp! In the ladies from B*L*I*S*S* series (a series of spoofs by Dorchester with various writers on the James Bond Books), Lynsay gives you a down to earth spy vs spy. In her warm and funny style, she offers one delicious romp! WARNING: if you have a chest cold or broke ribs do not read. If you are in a public place and do not want people looking at you - do not read there!! You will just laugh so hard you might hurt or embarrass yourself!! Jane Spyros is into making gizmos for BLISS spy - and wow what gadgets!! Won't spoil the surprise and tell you about them, but let's say you will be howling from page one!! Jane's neighbour borrows something accidentally - a tracker - thinking it is something she needs on a hot date. Jane figures she will get it back from her later, but it comes in very handy when the neighbour's brother turns up looking for his missing sister. Jane, her wheelchair bound ex-spy grandmother and the brother are suddenly in hot pursuit of his sister who stumbled onto a super spy ring ala THRUSH. Suddenly, Jane is forced into being a spy instead of an inventor and it is once more one of Lynsay's delightfully warm and laugh out loud tales. I know Lynsay is a little nervous, this being her first contemporary, and afraid her historical fans might not want to read her first contemporary. To me Lynsay Sands on the cover is a guarantee you will have a wonderfully, funny time!! WISE Writers and Readers Book of the MONTH for February 2003 1 von 1 Kunden fanden die folgende Rezension hilfreich. Agentenparodie - 5 Sterne sind nicht genug Von HM Ich habe Tränen gelacht und musste gezwungenermaßen zwischendurch Pause machen, weil ich einfach nichts mehr sehen konnte! Erinnert stark an Agentenparodien wie Caprice (Doris Day), Maxwell Smart, James Bond-Filme mit Roger Moore - alles mit einem zusätzlichen erotischen Touch von Lynsay Sands.

Kurzbeschreibung New York Times bestselling author Lynsay Sands delivers a "madcap escapade" (Publishers Weekly) in this contemporary romance about a quirky inventor and unexpected love. Shy Jane Spyros loves gadgets. She can build anything B.L.I.S.S. needs in the international organization's fight against crime although its agents aren't exactly lining up at her door. Some of them think her inventions are a little too . . . well, innovative. Like her shrink-wrap prophylactic constraints or her spray-on truth serum. Of course, you can't use wacky inventions to fix all your problems; Jane knows that better than anyone. Her neighbor has been kidnapped, driving that point home. She will have to team up with another human being and Abel Andretti arrives just in time. He will help Jane find her neighbor, stop a villain, and, most of all, he will show Jane how to love the daylights out of something without batteries.
