A boy in a world of building stones and magic Von Ein Kunde A little boy (slightly selfish as most humans are) hates his governante (something like an all day teacher). Fortunately, he has the unique talent to build wonderful towns out of building blocks. One night, in a magical moment, he enters his newest creation. Will he be able to get out before the

gouvernate takes it apart? This story is so imaginative and full of interesting ideas. It also has a little morale at the end but the reader never notices. That is Edith Nesbit for you. The very first writer who wrote books FOR children and not about them. I simply loved it when I was a child and I still do although I'm way over 30 now. I can only recommend it to anyone. 0 von 0 Kunden fanden die folgende Rezension hilfreich. nice one Von Stefanie Bruning A childrens' book about a boy who builds cities from everything that comes to hand and finds himself transported to his last work.
